Shopee will online regularly share the latest market information through announcements and WeChat official account and offline organizes to share skills and analyze successful cases

The technology R&D team is settled in Shenzhen

Chinese cross-border sellers will be fully supported to vigorously develop cross-border business

PART 3

SHOPEE shop application

Shopee

Shopee shop application

Please be sure to look for the following channels:

- **Official website delivery: <http://shopee.cn/>;**
- **Official WeChat official account, WeChat channel, Tik Tok account: Shopee Cross-border E-commerce**
- **Official Kwai account: Official Shopee**
- **Official applet: Shopee Investment Promotion**
- **Attend the investment promotion conference of Shopee and directly contact with the investment promotion manager on site.**

✕ 表单 | 麦客CRM
...

如您是**拥有丰富电商运营经验、强供应链整合能力、高意愿运营Shopee**的卖家，可申请**重点卖家扶持计划**。

扶持政策：

- 1、包括一对一专人孵化经理**
- 2、多站点同步开通、多店铺支撑运营**
- 3、以及日常活动流量优先扶持**

具体以Shopee官方人员沟通为主。如需申请重点卖家扶持计划，请务必勾选最后一选项。

热招类目

主类目	细分类目	热卖产品
Men Clothes	Socks	袜子
	Outerwear、Pants & Shorts、Tops、Underwear	防水外套、涤纶夹克、男士西装外套、男士裤子、男士长袖衬衫、男士T恤、中袖、男士内裤、男士外套、男士下装、衬衫、健身裤
Kids Fashion	Shoes	男童鞋、女童鞋、童鞋
Sports & Outdoor	Biking, Sport Apparel, Hiking	面具、车罩、车灯、配饰、烧烤炉、帐篷、手电筒、行军床（短尾）、运动短裤、运动长裤、运动内衣、运动裤

您是否了解并保证以下填写的所有信息真实有效且曾经并没有用过此材料申请过Shopee任意店铺 *

是，我已了解并未入驻过Shopee。

 否，我已开店或者正在入驻流程中。

邮箱（请留意审核工作人员的邮件信息） *

**Follow the prompts to apply for opening a shop step by step;
After filling in the form, Shopee will send the audit information to your QQ mailbox**

入驻成功后

- Shopee卖家孵化团队将通过邮箱、QQ或电话等方式与卖家对接，请注意查收相应信息；
- 每周Shopee官方通过电子邮件发送《Shopee市场周报》，供卖家运营参考；
- 新开设店铺默认的转运仓库是Shopee深圳转运仓，卖家须根据自身情况向客户经理申请变更为上海转运仓、义乌转运仓或泉州转运仓。

PART 4

Collection account registration and binding

Introduction to the function of the seller center of Shopee - [Finance - Bank Accounts] My Wallet

银行账号

我的支付服务

您只能选择一个付款通道

Shopee will pay the order settlement amount to the seller's account through the third-party payment partners **Payoneer**, **PingPong** or **LianLian Pay** twice a month in the **middle of the month** and at the **end of the month**.

***Note:** In 2020, the sellers of new shops will receive the emails automatically sent by the system to open parent accounts and subaccounts. After parent accounts and subaccounts are activated, payment passwords (wallet passwords) shall be set before the third-party payment accounts are bound in the background of the seller center.

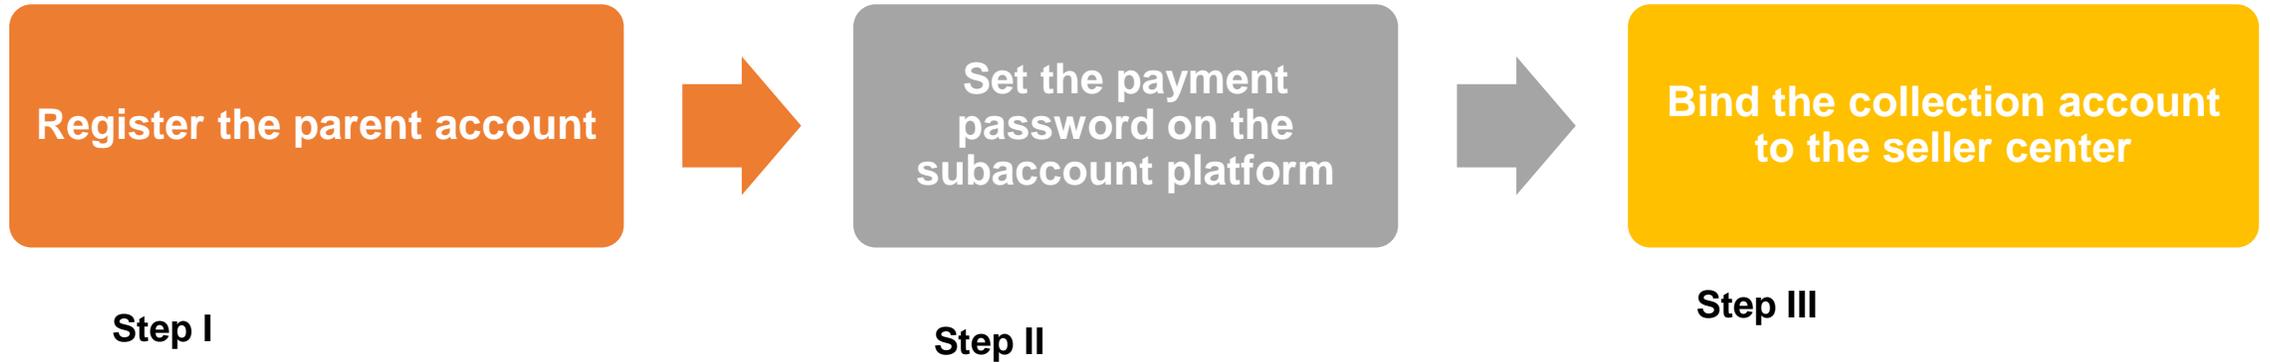

Description of setting parent accounts and subaccounts: <https://shopee.cn/edu/article/5675>

Description of binding the wallet password:

<https://shopee.cn/edu/article/4561>

If the account has been bound successfully, "Active" will be shown on the card. On the contrary, if the account has not been bound successfully, or the binding operation has not been performed, it's gray.

How to bind the collection account

Register the parent account of Shopee

Dear new seller, your mailbox used for parent account registration will receive an email to invite account activation. Please click "Activate Account" according to the email instructions to enter the parent account and subaccount platforms to complete the activation of the parent account. After the activation of the parent account is completed, **the parent account and its password will be used in subsequent operations!**

启用您的Shopee 商家主帐户

您好

您已被邀请创建您的团队管理帐户，该帐户将会被赋予全部使用权限以管理您所有商店/商店与员工的子帐户。您的商店将与管理账户绑定。

只需2步骤便可以激活你的管理帐户。请立即点击按钮已完成帐户激活。（电邮激活链接将在72小时后过期）

[激活帐户](#)

Cheers
Shopee团队

1 Complete Account Info 2 Verify Phone Number 3 Complete

Shopee跨境卖家

Set Enterprise ID 设置企业编号，即是主帐户与子账号的前缀，一旦设置不可更改。

Choose an ID that best represent your enterprise entity. You and your team members (sub-accounts) will share a same enterprise ID prefix. Enterprise ID is NOT subject to change once set.

Set Password 设置密码

Choose a strong password and do not reuse it on other platforms. Password should be 8-20 characters long and a combination of following types: letters, numbers and symbols.

输入密码

再次确认

Set Your Name as team owner 设置主帐户的名称

Set a name that your team members will identify that's you.

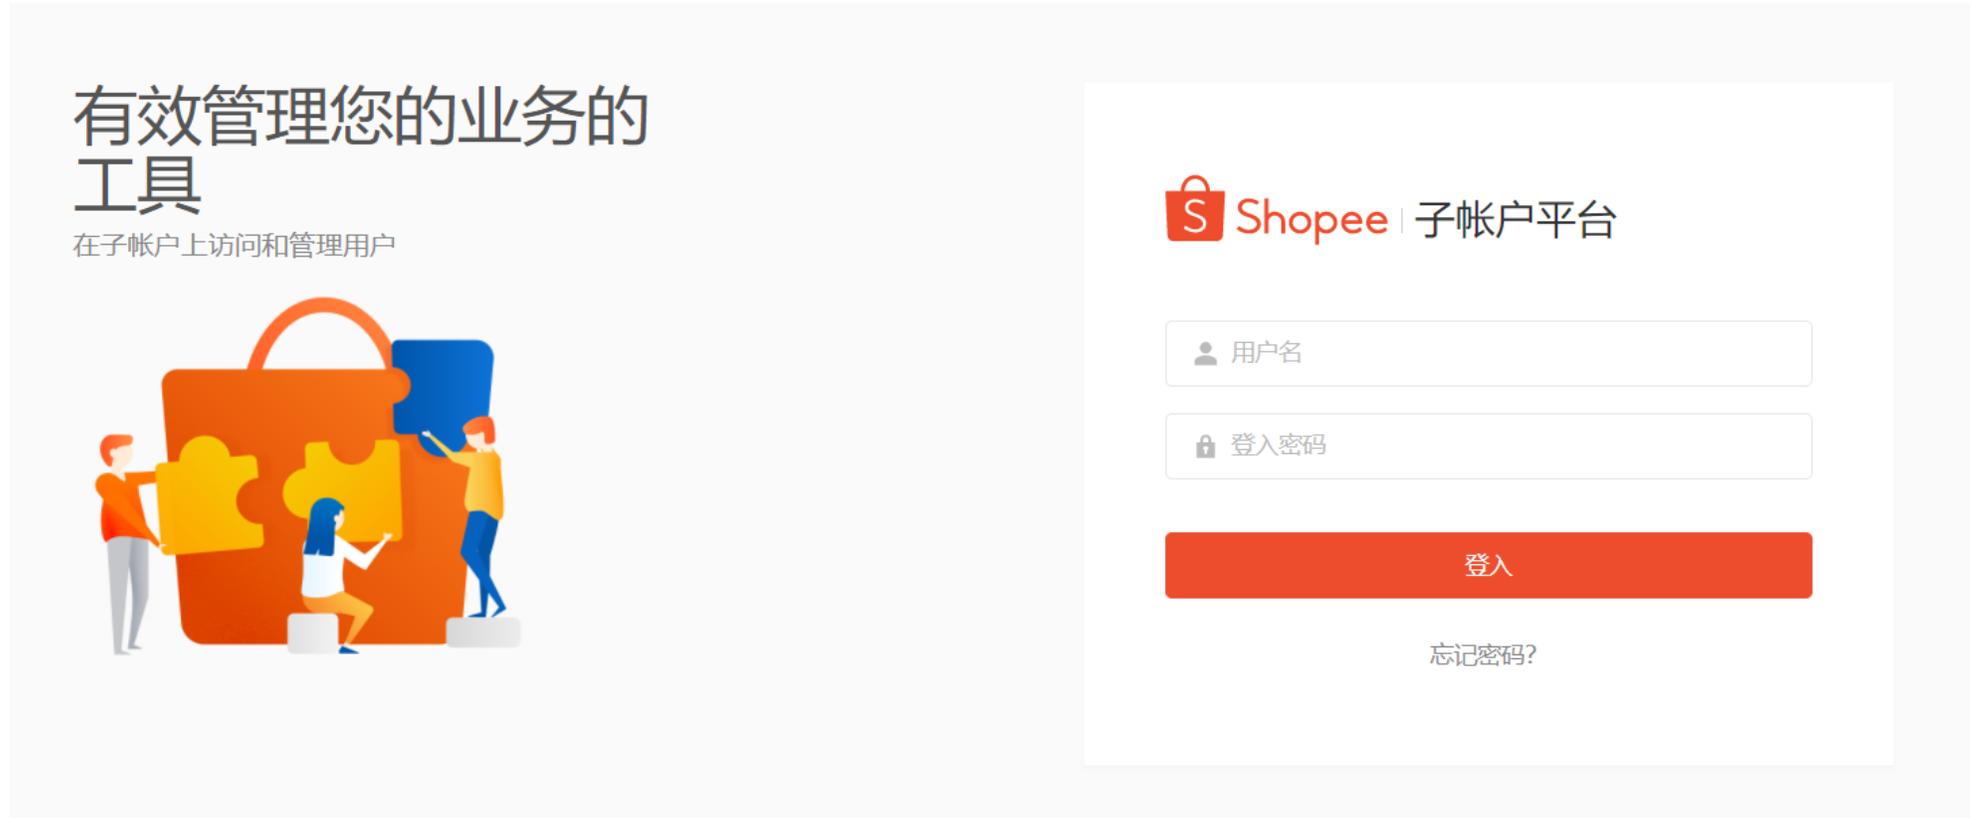

[Next: Verify Phone Number](#)

Understand the payment password

The **[payment password]** is the password to be used for any payment / bank account binding. Please distinguish it from the login password!

The **[payment password]** can only be set and changed on the **subaccount platform** with the **parent account!**

我的商家

Tips for setting the payment password!

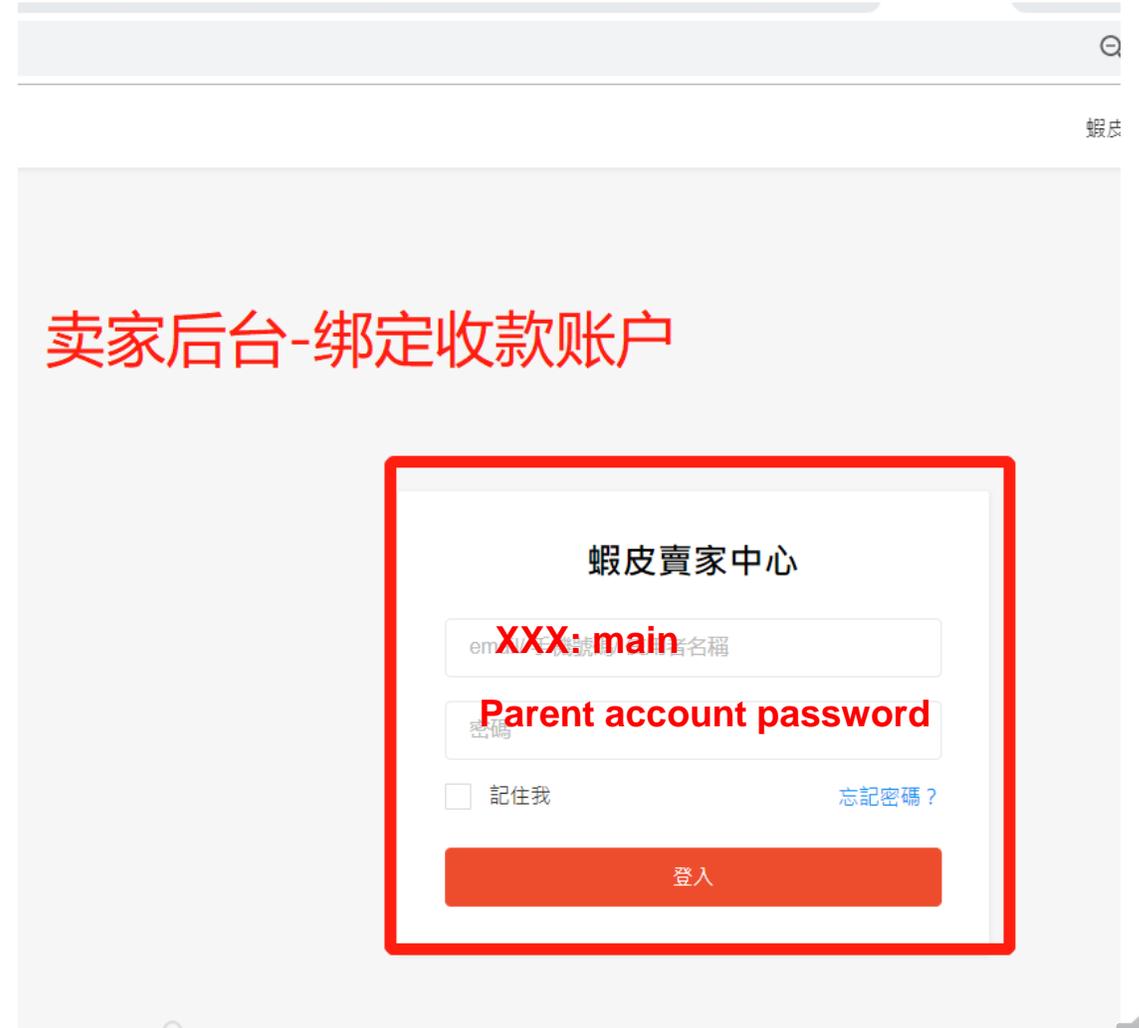

1. The payment password cannot be the same as the login password, and the password length shall be 8-16 digits.

2. If multiple shops are bound to the parent account, this payment password will be applicable to all shops under the same parent account!

Bind the collection account

Step I: login the **seller center** with the **[parent account password]**

Bind the collection account

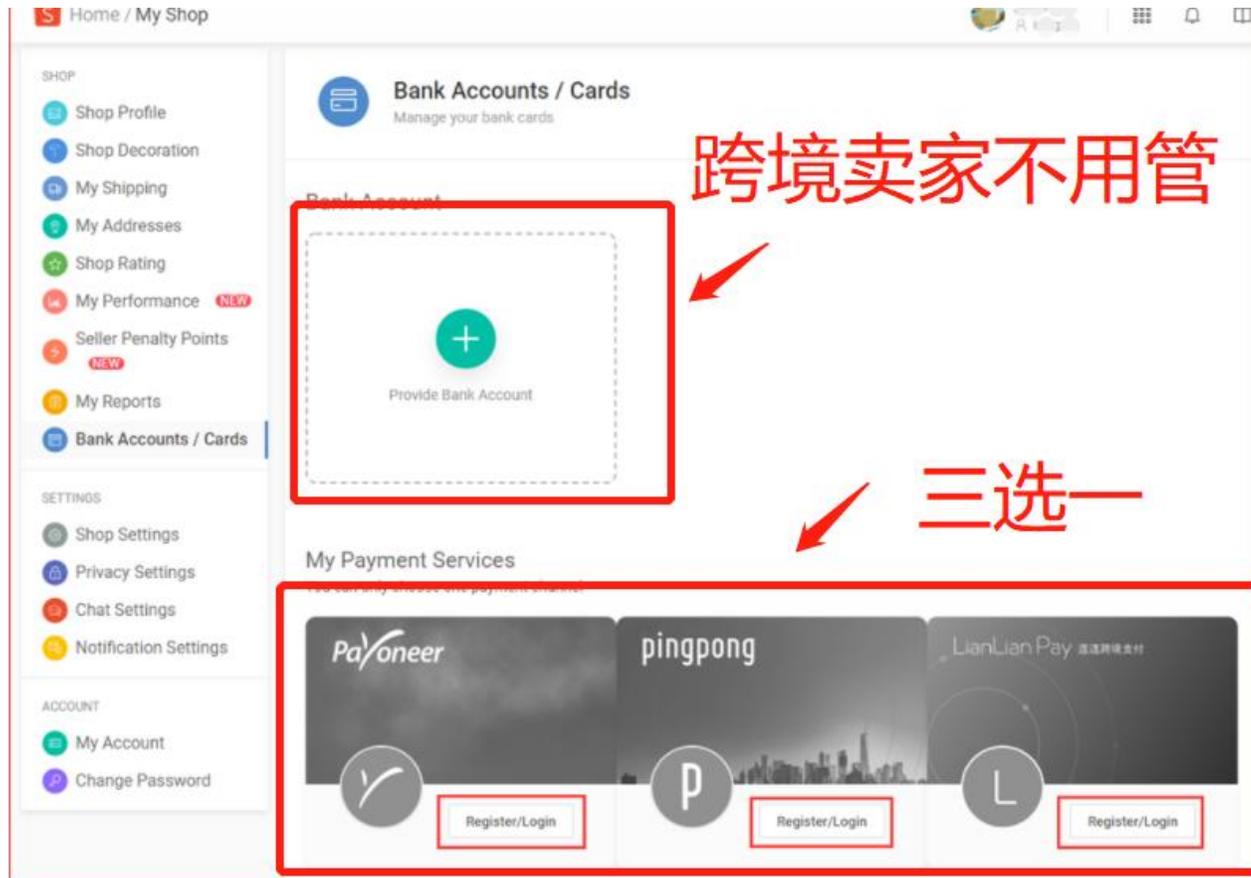

Step II: click the bank account. **[Note]** After clicking, you are required to enter the **[login password of the parent account]** for safety reasons.

Bind the collection account

Step II: enter Bank Account - My Payment - Payoneer / LianLian Pay / Pingpong (select one to register / login)

[Note] After clicking Register / Login, you are required to enter the **[payment password]** for the next operation.

Bind the collection account

Step III: After binding, it is blue and in the active state, which means that the binding operation is completed!

Payment rules

1. Twice a month. Please first find out the orders in the first half of the month up to the loan date (only the payment for **orders completed** in the first half of the month is allocated each time). If no payment is made this time, it will be postponed to the next time; **The monthly payment time is about within the 4th-10th day and the 22nd-30th day**, which may be delayed or advanced by 2 days due to the different working days and the transfer cycles of various banking systems.
2. If the collection account is bound this month, it will take effect and receive the payment next month.
3. In terms of payment currency: the payment currency in Singapore is SGD; the payment currency in Indonesia is IDR; the payment currency in Thailand / Malaysia / Taiwan / Philippine is USD. The withdrawal currency of the Vietnam site "Lianlian" is determined by sellers.

Exception handling:

If there is any exception in the binding process, please login the seller learning center of Shopee for more details!

Introduction to the function of the seller center of Shopee - [Order-My Orders] My Orders

1. All

Include unpaid orders, orders to be shipped, shipped orders, completed orders, canceled orders and return / refund orders

2. View Shipping Details

Click to view detailed information such as order logistics status, the buyer's receiving address, order products and order amount

3. Arrange Shipment

For undelivered orders, click this button to operate order shipment

Shipment procedure:

1. Click "Arrange Shipment" on the page [To Ship] of the order to be shipped to apply for shipment number.
2. Click [Print Waybill] to print out the shipping list, download the corresponding pdf file and print the express sheet (10*10 cm) as required

***Note:** please click in DTS to apply for the shipment number, so that goods are shipped to the logistics transit warehouse as soon as possible

The screenshot displays the 'My Orders' section of the Shopee seller center. At the top, there is a navigation bar with tabs: 'All' (highlighted with a red '1'), 'Unpaid', 'To ship', 'Shipping', 'Completed', 'Cancellation', and 'Return/Refund'. A red button labeled 'Ship my orders' is located on the right side of the navigation bar. Below the navigation bar, there are two order cards. The first order card shows a product image of a bag, the title 'New Fashion Casual Girl PU Leath...', quantity 'x1', price 'RM31.99', and payment method 'Online Payment'. The status is 'To ship' with a sub-note 'Waiting for courier to confirm shipment.'. On the right side of this card, there is a 'Standard Express' label, a 'Print Waybill' button, and a red button labeled 'View Shipping Details' with a red '2' above it. The second order card shows a product image of a bracelet, the title '1PC Silver And Gold Color CZ Hoo...', quantity 'x1', price 'RM32.96', and payment method 'Credit/Debit Card'. The status is 'To ship' with a sub-note 'To avoid late shipment, please ship before 28-02-2019.'. On the right side of this card, there is a 'Standard Express' label and a red button labeled 'Arrange Shipment' with a red '3' above it.

[Shopee Event]

1. Campaigns

The platform will carry out the corresponding theme activities within different time categories

2. Shopee Shocking Sales

The platform will carry out irregular official limited-time spike activities

[Marketing Tools]

1. My Ads (keyword promotion)

Buying keyword services can improve the exposure of products on the platform and attract more customers

2. Discount Promotions

Shop promotion discount set to improve the conversion rate of shop products

3. Vouchers

Shop discount vouchers can be set by yourself to attract buyers to buy more than items once.

4. My Shop Shocking Sale

The limited-time sale activities of the shop can be set by yourself to achieve low-cost customer attraction effect

5. Top picks

The hot products in the shop are selected as top picks

6. Follow Prize

Buyers are guided to pay attention to the shop and increase the conversion rate of the shop

7. Shipping Fee Promotion

The freight discount of shop products can be set by yourself to increase the order quantity.

Shopee will pay the order settlement amount to the seller's account through the third-party payment partners **Payoneer**, **PingPong** or **LianLian Pay** twice a month in the **middle of the month** and at the **end of the month**.

***Note:** In 2020, the sellers of new shops will receive the emails automatically sent by the system to open parent accounts and subaccounts. After parent accounts and subaccounts are activated, payment passwords (wallet passwords) shall be set before the third-party payment accounts are bound in the background of the seller center.

Description of setting parent accounts and subaccounts: <https://shopee.cn/edu/article/5675>

Description of binding the wallet password:

<https://shopee.cn/edu/article/4561>

If the account has been bound successfully, "Active" will be shown on the card. On the contrary, if the account has not been bound successfully, or the binding operation has not been performed, it's gray.

SLS运费(卖家承担)的意义

Meaning of the so-called SLS freight (borne by the seller)

商品最终定价逻辑

Final pricing logic of commodities

举例说明

Example

Costs and product pricing

PART 1

Commission and transaction service charge

5%-6% commission

5%-6% commission will be charged, but new sellers will be exempted from commission for the first three months.
(subject to the time when the shop is established)

2019 年 Shopee 平台佣金费率表									
佣金费率	等级	上月已完成订单总金额 (不含订单运费)	台湾	印尼	马来西亚	新加坡	泰国	越南	菲律宾
	1 级	>=100 万美金	5%						
	2 级	>=50 万美金	5.5%						
	3 级	<50 万美金	6%						
注: 1.上月已完成订单总金额 (不包含订单运费) 为佣金收取基数; 2.收取佣金的费率适用于下一个月 16 号开始后的一个月;									
示例: 经计算, 卖家 A 2019 年 7 月已完成订单总金额为 120 万美金, 则 2019 年 8 月 16 日-9 月 15 日的佣金费率为 5%; 2019 年 7 月已完成订单总金额为 95 万美金, 则 2019 年 8 月 16 日-9 月 15 日佣金费率为 5.5%。									

Orders with commission:

- (1) The transaction commission is only charged for completed orders (the commission charging base does not include the freight of the order);
- (2) No transaction commission will be charged if the order is canceled;
- (3) After the first site of the platform is opened, the same seller will be free of commission during the first three months (if other sites are opened three months before the first site is opened, they will also be free of commission during the first three months).

Note: Shopee platform reserves the right of final interpretation and does not exclude the adjustment to charging items and standards. The current version rate remains valid before releasing a new commission rate by Shopee platform.

Transaction service charge 2%

On January 1, 2019, Shopee platform began to charge sellers a 2% transaction service fee, which is the transaction service charge to be paid actually to the transaction settlement service provider.

Calculation method of transaction service charge: 2% of the total payment of the order (including the freight paid by the buyer after using coupons or Shopee coin).

1. The transaction service charge will be charged for completed orders (including orders for payment on delivery and non-payment on delivery), will not charged for unfinished orders, canceled orders and refunded orders;
2. The transaction service charge will be charged based on the order amount (**including the freight paid by the buyer**);
3. The charging rate of the service charge is **2%**;
4. The service charge is independent of the platform commission and will not be exempted during the first three month.

For example, an order with a payment amount of USD 100.

Total payment amount: USD 100

Transaction service charge: $\text{USD } 100 \times 2\% = \text{USD } 2$

Concept

Actual freight (paid by Shopee on behalf of the buyer): the fee for transporting from the Shopee transfer warehouse to the buyer, which will be settled by the platform with the seller after the order is completed.

Calculation formula

Actual freight (paid by Shopee on behalf of the buyer) = price of first weight +(actual weight - first weight)/unit of additional weight * unit price per additional weight+additional charge for exceeding 0.8 KG.

Example:

What is the actual freight of SLS logistics as for commodities sold to Malaysia's Area B weigh 1.5 KG after being packaged?

Actual freight (paid by Shopee on behalf of the buyer) = 5.95+(1.5-0.01)/0.01 * 0.15+(1.5-0.8)/0.25 * 2.2 = RM 34.46.

卖家支付运费 (按照包裹到仓实际重量)					
目的地	首重(KG)	首重价格	续重单位(KG)	每续重单位价格	超过800g部分, 每0.25KG附加费
KV区	0.01	5.35 → 5.15	0.01	0.15	2.20
NON KV区		6.15 → 5.85		0.15	2.20
B区		6.15 → 5.95		0.15	2.20
C区		6.15 → 5.95		0.15	2.20

Note: The latest rate is subject to the seller bulletin board and platform rules of Shopee platform! (Website: <http://shopee.cn>)

Concept

1. Actual freight (paid by Shopee on behalf of the buyer): the fee for transporting from the Shopee transfer warehouse to the buyer, which will be settled by the platform with the seller after the order is completed.
2. Seller's order income: including cost, profit, domestic express fee, etc.
3. Commodity price: the price of commodity sold to consumers after discount.
4. Platform rules: The buyer will pay part of the freight, and the remaining freight (the actual freight minus the freight paid by the buyer) will be hidden by the seller into the commodity price, that is, the "hidden price"

买家支付运费 (按照设定商品重量)				
目的地	KV区	NON KV区	B区	C区
首重800g	5.20 → 5.00	6.00 → 5.70	6.00 → 5.80	6.00 → 5.80
续重/每0.25kg	2.20	2.20	2.20	2.20

卖家支付运费 (按照包裹到仓实际重量)					
目的地	首重(KG)	首重价格	续重单位(KG)	每续重单位价格	超过800g部分, 每0.25KG附加费
KV区	0.01	5.35 → 5.15	0.01	0.15	2.20
NON KV区		6.15 → 5.85		0.15	2.20
B区		6.15 → 5.95		0.15	2.20
C区		6.15 → 5.95		0.15	2.20

Note: The latest rate is subject to the seller bulletin board and platform rules of Shopee platform! (Website: <http://shopee.cn>)

Calculation formula

Commodity price = **seller's order income** + actual freight (paid by Shopee on behalf of the buyer) - **freight paid by the buyer (including additional charge).**

= **seller's order income** + **price of first weight** + (actual weight - first weight) / unit of additional weight * unit price per additional weight + **additional charge for exceeding 0.8 KG - freight paid by the buyer (including additional charge)**

It is obtained based on the formula:

Commodity price = seller's order income + **weight / 0.01 * RM 0.15**, weight unit: KG

Hidden price = **weight / 0.01 * RM 0.15**, weight unit: KG

Note: The seller will add the freight difference of RM 0.15 in the commodity price for each 10 g of commodity; fill in the weight of the commodity being packaged when uploading

Example:

How much will be hidden by the seller for commodities sold to KV area and weighed 0.5 KG after being packaged?

Hidden price = **weight / 0.01 * RM 0.15**, = 0.5 / 0.01 * 0.15 = 7.5 RM

Please scan the QR code below for pricing tools

- 1、蓝色部分为物流手册中计算得到的真实费用；
- 2、红色部分为运费买卖双方承担部分详解；C列为卖家承担0.15RM/10g（需藏入定价部分），D列为买家（KV区）承担3.8RM；

PART 3

Check the bill

How to check the details of the order (subject to the completed order)

Order amount = the total price of the commodity

Total freight amount = the fee that the seller shall pay for logistics

Transaction & credit card service charges = commission (the new seller is free of commission during the first three months)+activity commission (activities with freight free)+transaction service charges

【已完成订单】 (以这个为准) **商品金额=商品售价总和**

商品金额	\$312
商品价格	\$312
运费总额	-\$105
买家支付的运费	\$0
实际运费 (Shopee代付) 买家+卖家运费	\$105
回扣	\$60
Shopee运费回扣	\$60
费用与收费	-\$22
佣金	\$16
交易手续费	-\$6
订单收入	\$245

已完结订单的运费总额才是卖家要出的
运费是按实际称重结合体积重算的!
如果觉得不对, 先填伙伴云问下实际称重!

回扣=补贴, 平台给的运费补贴, 所以买家出的运费为0

开店算起前三个月免佣金, 超过3个月会收 (不含运费)
如果参加如免运的活动, 佣金也一起算

交易手续费: 订单金额【包含运费】的2%
是给【交易清算服务商】的! 之前一直由平台承担
订单完结时的总收入才是准的!!

Fee details shown on the background

Please refer to the completed order for checking the income details!

PART 4

Product pricing

TO know the final pricing logic of commodities

It is necessary to find out the meaning of the so-called **SLS freight** (borne by the seller)

For orders of SLS channel, no matter how heavy each order is and how many pieces are bought by the buyer, a part of fixed freight will be provided only.

(For some sites, such as Malaysia site, the buyers shall pay additional charges if commodities they buy exceed the first weight; basically, they only need to pay the freight of first weight if commodities are not heavy)

However, logistics providers charge freight from sellers by weight, without price difference between them.

If the freight difference is not hidden in the product price, this part of the freight difference is actually paid by the seller.

So, we shall included the freight difference involved into the price; in the formula below, calculate the **freight difference** as **SLS freight (borne by the seller)**, namely the hidden price.

Final pricing decomposition

Final pricing logic of commodities=

= cost+profit+domestic freight +SLS freight (borne by the seller)+transaction service charge+commission

Calculation formula for final pricing of commodities

Final price of commodities=

[cost+profit+domestic freight +SLS freight (borne by the seller)]+*(100%+6%+2%) + freight of the buyer *2%

Calculation formula for final pricing of commodities

Final price of commodities=

$[\text{cost} + \text{profit} + \text{domestic freight} + \text{SLS freight (borne by the seller)}] \times (100\% + 6\% + 2\%) + \text{freight of the buyer}$
 $\times 2\%$

Example-Malaysia site

How to price the mobile phone shell (package sold to KV area and weighed 100 g after being packaged) with cost price of 3 RM, profit of 2 RM, domestic freight of 1 RM?

First of all, freight borne by the seller = $\text{weight} / 0.01 \times 0.15$ RM, weight unit: KG
That is, SLS freight (borne by the seller) = $0.1 / 0.01 \times 0.15 = 1.5$ RM

Based on **the final pricing formula of commodities, price =**

$[\text{cost} + \text{profit} + \text{domestic freight} + \text{SLS freight (borne by the seller)}] \times (100\% + 6\% + 2\%) + \text{freight of the buyer}$
 $\times 2\%$

Final price = $(3 + 2 + 1 + 1.5) \times (100\% + 6\% + 2) + 3.8 \times 2\% \approx \mathbf{8.2 \text{ RM}}$

The latest rate is subject to the seller bulletin board and platform rules of Shopee platform! (Website: <http://shopee.cn>)

Pricing tips

1. The price obtained based on commodity pricing formula is **discounted price**, so a certain discount margin should be reserved

If **20% off sale** is provided for the mobile phone shell shown in the above figure, **the original price is $8.2/0.8=10.25$ RM**

2. New sellers are free of commissions three months before a shop is opened, so they can appropriately **reduce product price to obtain competitive prices!**

3. Please refer to the hot products of the same category before pricing. If it is found that the price is relatively high, try to **find low-cost sources, reduce the target profit for winning competitiveness!**

4. Price reasonably and set the **low-cost customer attraction commodities and mainstay commodities** to ensure **the continuous attraction of customers!**

5. If the price is competitive at Malaysia site, the system will **automatically mark the Lowest Price Guaranteed to get exclusive exposure page!**

STEP 2

Enter [My Commodities]-click [Add Commodities]

The screenshot shows the 'My Commodities' page on the Shopee seller dashboard. The page has a red header with the Shopee logo and the text '首页 > 我的商品'. Below the header, there are navigation tabs: '全部' (All), '架上商品' (Items on shelf), '已售完' (Sold out), '已禁卖' (Banned), and '未上架' (Not on shelf). A search bar with '0 / 1000' characters and a search icon is present. A red button labeled '+ 新增商品' (Add new commodity) is highlighted with a red box. A yellow tooltip points to a grid view icon with the text '点击这里以使用网格视图。' (Click here to use grid view) and a '确定' (Confirm) button. A dropdown menu is open, showing options: '新增商品' (Add new commodity), '编辑现有商品' (Edit existing commodity), and '批次动作' (Batch action). The '新增商品' option is circled in red, and a red arrow points to it. The main content area shows a '找不到商品' (No products found) message with a box icon.

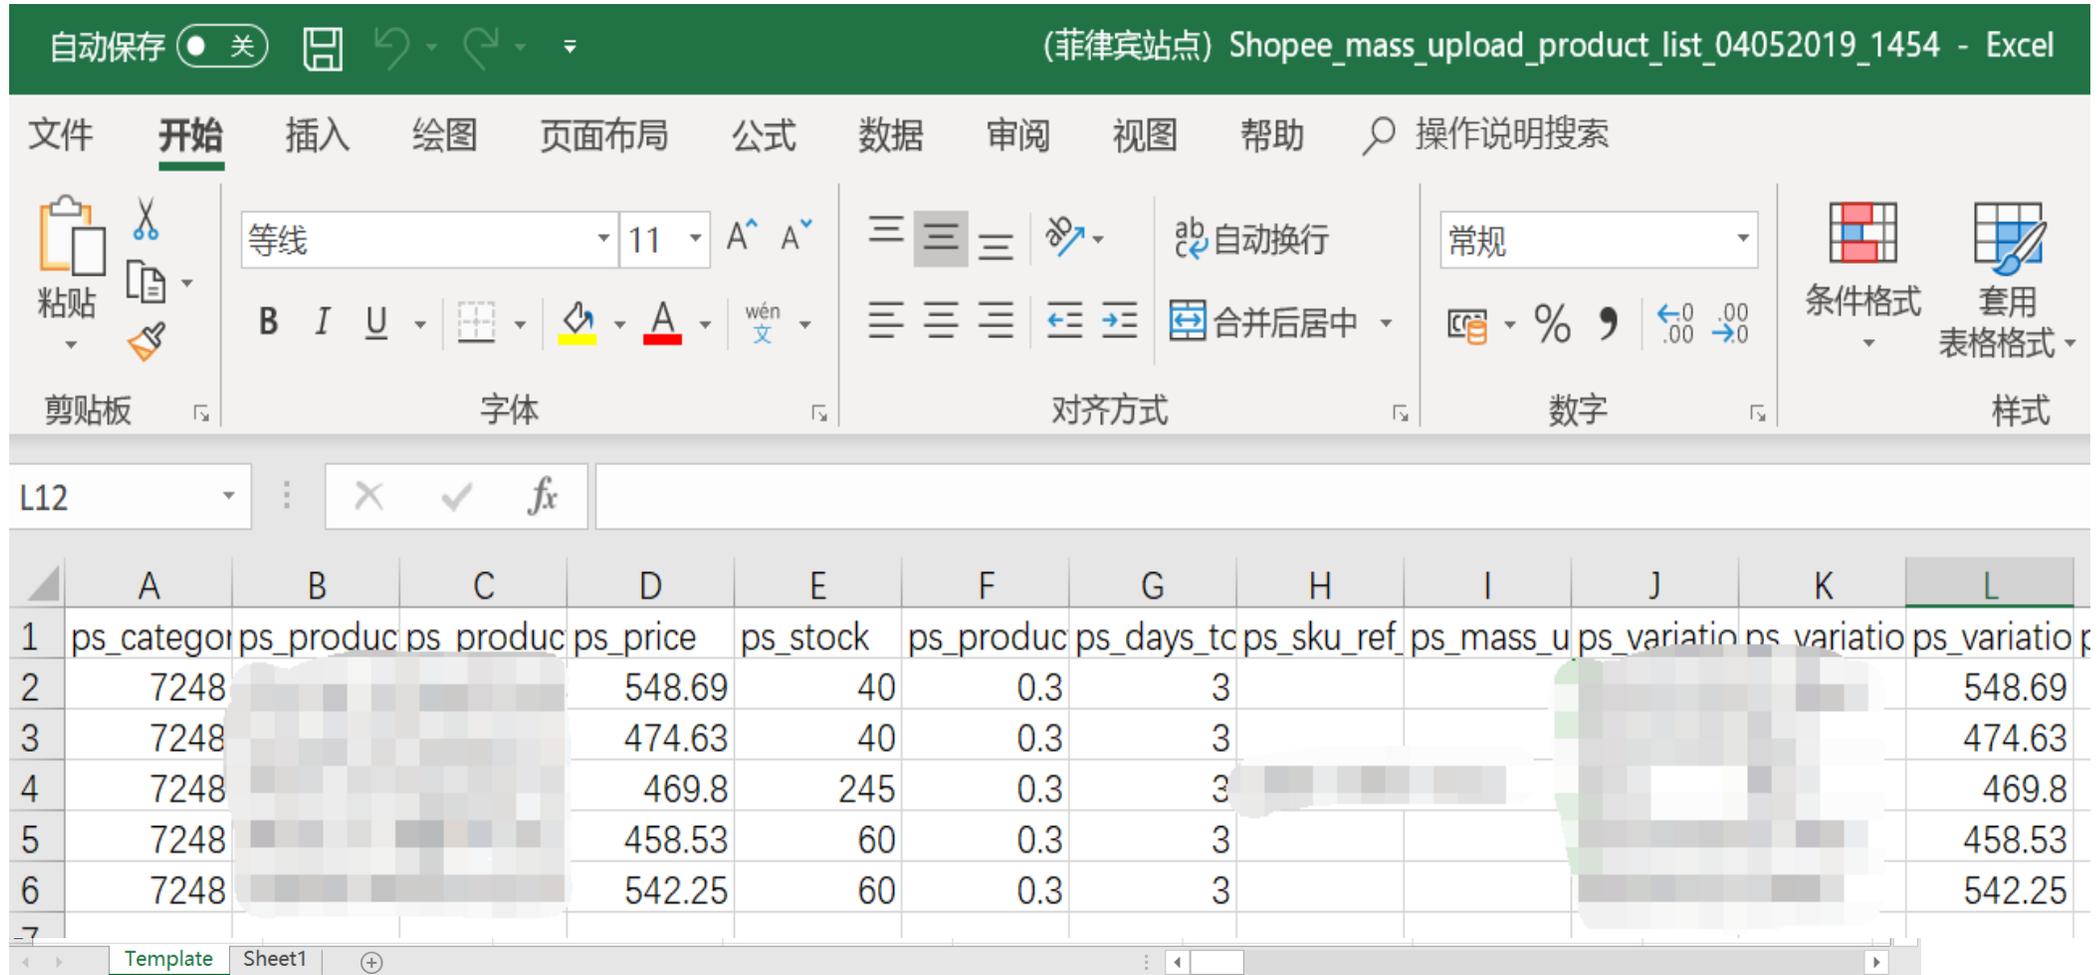

STEP 3

 Click [Download] to upload the template

STEP 4

Sort out the data of [Upload Template], click [Validate] first and then click [Export]

The screenshot shows the Microsoft Excel interface with the following elements:

- Title Bar:** (菲律宾站点) Shopee_mass_upload_product_list_04052019_1454 - Excel
- File Menu:** 文件
- Home Tab:** 开始
- Other Tabs:** 插入, 绘图, 页面布局, 公式, 数据, 审阅, 视图, 帮助
- Clipboard Group:** 剪贴板, 粘贴, 剪贴板
- Font Group:** 等线, 11, A^, A^, B, I, U, 字体
- Paragraph Group:** 对齐方式, 自动换行, 合并后居中
- Number Group:** 数字, 常规, %, .00, .00
- Styles Group:** 条件格式, 套用表格格式, 样式
- Formula Bar:** L12, fx
- Table:**

2	7248			548.69	40	0.3	3					548.69
3	7248			474.63	40	0.3	3					474.63
4	7248			469.8	245	0.3	3					469.8
5	7248			458.53	60	0.3	3					458.53
6	7248			542.25	60	0.3	3					542.25
7												
- Bottom Bar:** Template, Sheet1

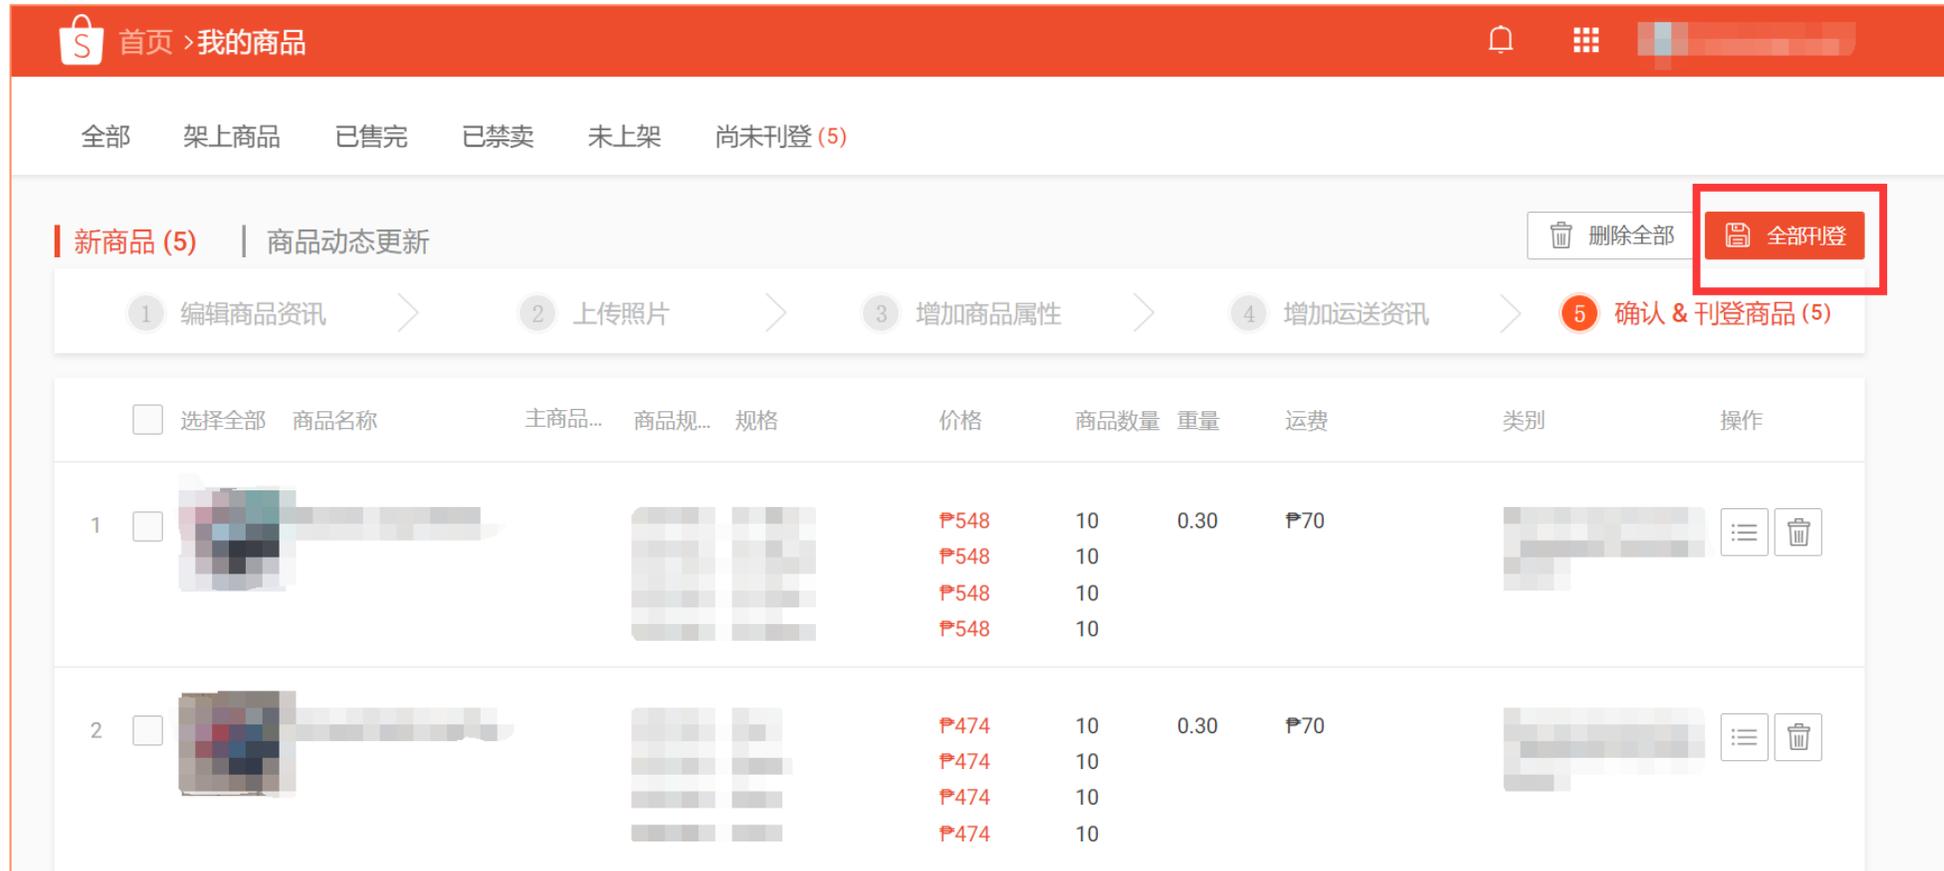

Edit the required information such as [Commodity Information] and [Commodity Attributes] in turn

The screenshot displays the Shopee Seller Center interface. At the top, there is a navigation bar with a home icon and the text "首页 > 我的商品". Below this, a secondary navigation bar shows various product status filters: "全部", "架上商品", "已售完", "已禁卖", "未上架", and "尚未刊登 (5)". The main content area is titled "新品 (5) | 商品动态更新" and features a progress indicator for "1 编辑商品资讯 (5)". A central white modal window with a close button (X) displays a thumbs-up icon surrounded by stars and the text "恭喜您! 成功上传 5 个商品! 接下来, 请确认/编辑商品资讯". Below the modal is a red "编辑" button. The background interface shows a list of products with columns for "days to ship" and "操作". At the bottom, a secondary navigation bar includes "全部", "架上商品", "已售完", "已禁卖", "未上架", and "尚未刊登 (5)". Below this, another progress indicator shows steps: "1 编辑商品资讯", "2 上传照片", "3 增加商品属性 (5)", "4 增加运送资讯", and "5 确认 & 刊登商品". Buttons for "删除全部" and "储存全部" are also visible.

STEP 6

 Click [Update All] after the above steps are completed

The screenshot shows the Shopee Seller Center interface. At the top, there's a navigation bar with '首页 > 我的商品'. Below it, there are filter tabs: '全部', '架上商品', '已售完', '已禁卖', '未上架', and '尚未刊登 (5)'. The main content area has a header with '新商品 (5) | 商品动态更新' and two buttons: '删除全部' and '全部刊登' (highlighted with a red box). Below the header is a progress bar with five steps: 1. 编辑商品资讯, 2. 上传照片, 3. 增加商品属性, 4. 增加运送资讯, and 5. 确认 & 刊登商品 (5). The main table lists products with columns for selection, name, main product, specifications, price, quantity, weight, shipping fee, category, and actions. Two products are listed, each with four variants.

<input type="checkbox"/>	选择全部	商品名称	主商品...	商品规...	规格	价格	商品数量	重量	运费	类别	操作

PART 1

Shop decoration

Four elements of shop decoration

Shop profile photo

Shop name

Poster/ introduction

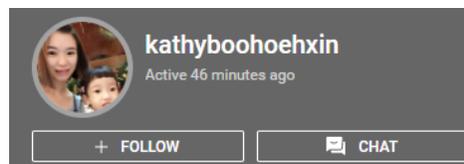

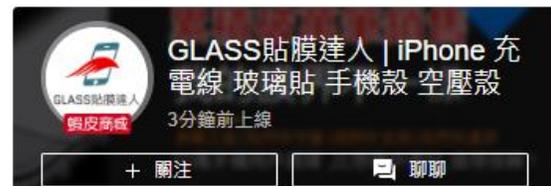

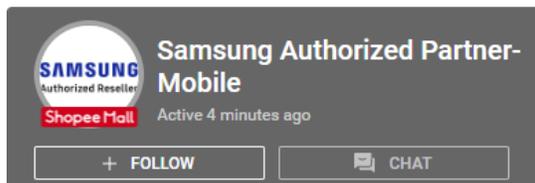

Shop classification

- Related to products or **brands**
- Try to **avoid** Chinese and strange symbols, or use selfies as profile photos.

- Be related to shop product **category/brand**.
- **Capitalize the first letter** of each word.
- Conform to the **tonality** of the shop.

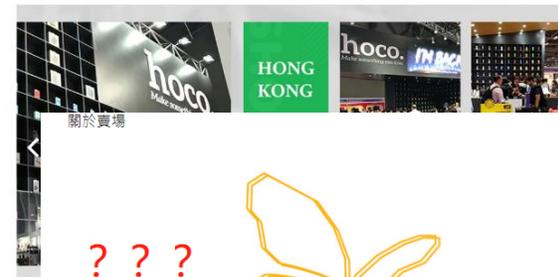

- Poster size **700*350**;
- Put **5 pictures**, instead of leaving them blank.
- **Pictures of hot products, recent activities, promotion information, etc. of the shop** can be put.

- Make an introduction to the shop **in paragraphs**.
- Vivid **symbolic expressions** can be used to avoid reading fatigue.

Shop name formula: [promotion information] + brand/shop name + main category 1 + [main category 2]

ABOUT SHOP

Hoco Official Shop

Hoco. insists on quality first and is devoted to building simple, practical and multi-color products with young style

有beer來 kids好物商城

profile
photo

Shop
name

Slideshow
and
introduction
of shop

Shop
classific
ation

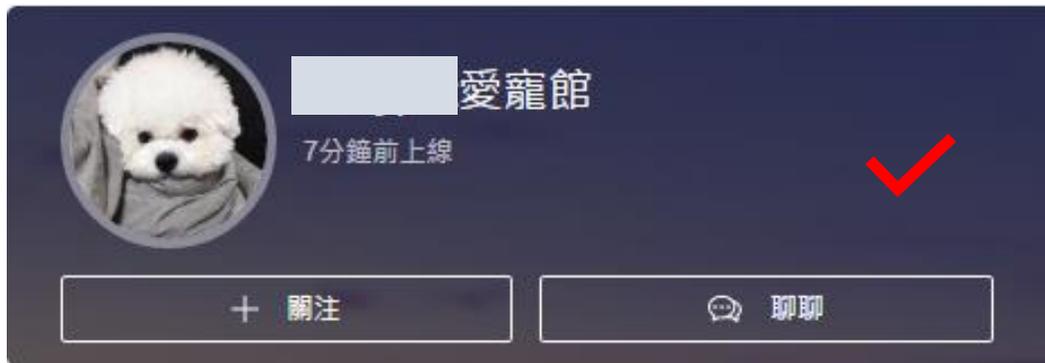

- Create **activity areas and hot categories**, and put them in front of the shop.
- **Refine product classification**, and manually create secondary categories with symbols.
- **Use emotions skillfully**, with vivid images.
- After setting, **check the effect on the app**, and then make adjustments.

Offer attractive top products to increase **click-through rate**.

Make clear product classification to improve the **probability of add-on items**.

Offer more instructive shop pages, to have better browsing experience and improve **conversion rate**.

1. Profile photo and name

VS.

- Main points of profile photo: Be clear and intuitive, and be related to name or positioning.
- **Main points of shop name:** Be popular and easy to remember, and be easy to associate with positioning.
- Some domestic brands may not be well-known in other countries or regions, so it is necessary to rebuild the shop brand.

2. Slideshow and introduction of shop

- Slideshow of shop: The size is unlimited; it is suggested that five pictures for slideshow should be “interactive activities - shop discounts - brand introduction - hot products”
- Shop introduction: Shop introduction - shop promotion - fan interaction gifts - answers to frequently asked questions (FAQs) from the buyer. Each line shall be as concise and clear as possible, with cute emotions (you can copy and paste on the platform) 📌 出貨規則 📌
- Make full use of the part for fan attraction interaction and preferential information display.

關於賣場

📌 出貨規則 📌

當天下午三點前下單當日發貨超過隔日發貨

發貨後兩~三天會送達您指定地點

滿意服務 / 記得給我們一個好評支持👍

接觸型商品，一律100%全新出貨

為避免接觸性傳染疾病，所以一經拆封使用無法退換貨。

3. Shop classification - principles and methods

A. Principle

- Create your own shop style, and display products with uniform and order style on the top;
- Develop strengths and avoid weaknesses, never display low-score products on the top, and give priority to advantageous categories;
- Efficiently use the space for display on the top, and never put duplicate products.

B. Type and application of custom classification

- Make good use of small icons to beautify classification titles.
- Be a good title attractor and set eye-catching titles for categories.
- Plan the fan zone, clearance zone and limited-time discount based on the advantage of ultra-low price.
- New product area and shopkeeper's recommendations
- Free delivery zone
- Bundle zone, buy one get one, etc.
- Main category: Be combined with festivals, brands and trends.

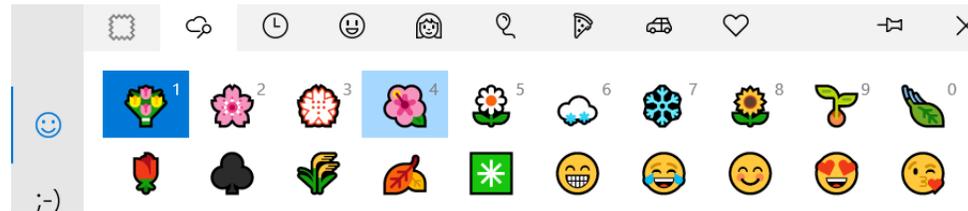

Make good use of small icons to beautify classification titles.

The use of small icons can bring some sense of fashion and interest to the rigid title, and play the role of decorating the shop. Specific use method:

- Method I: Search “symbol” on the Internet, and find the website, icon market: <https://www.fuhaodq.com/emoji/>
- Method II: **Microsoft input method**, click the graphic logo at the back.

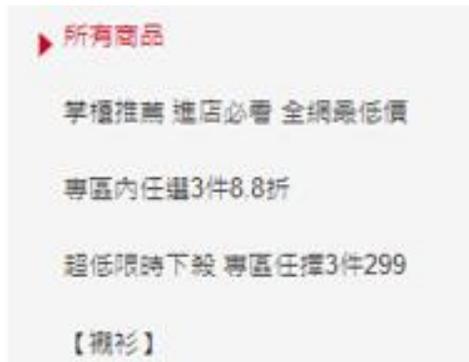

比如輸入 hua'er

Plan the fan zone, clearance zone and limited-time discount based on the advantage of ultra-low price.

Heavy discount and low price are often the first factor to attract customers.

- For the old shops with a certain basis, it is advisable to take out the products recently cleared out of season as a special zone, and offer a heavy discount, which can often attract customers and add orders, and get more buyer fans.
- For new shops, arrange a fan area with low-cost customer attraction on the top, to increase orders in the initial stage and quickly get more fans.
- For the products marked with the lowest price tag by platform, establish classified topping, and highlight the shop price advantage.
- The traffic of the platform seckill activity is extremely high, but after all, the conditions for participation are relatively high, and shops can attract customers by making some limited-time discount activities.

Bundle zone, and buy one get one.

- Bundle sales can often make commodities reach the threshold of free delivery, thus stimulating the buyer's purchasing power.
- Buy one get one. The gift zone captures the buyer's psychology of profit, and such a zone also has a high click-through rate.

to give a reminder of payment.

PART 2

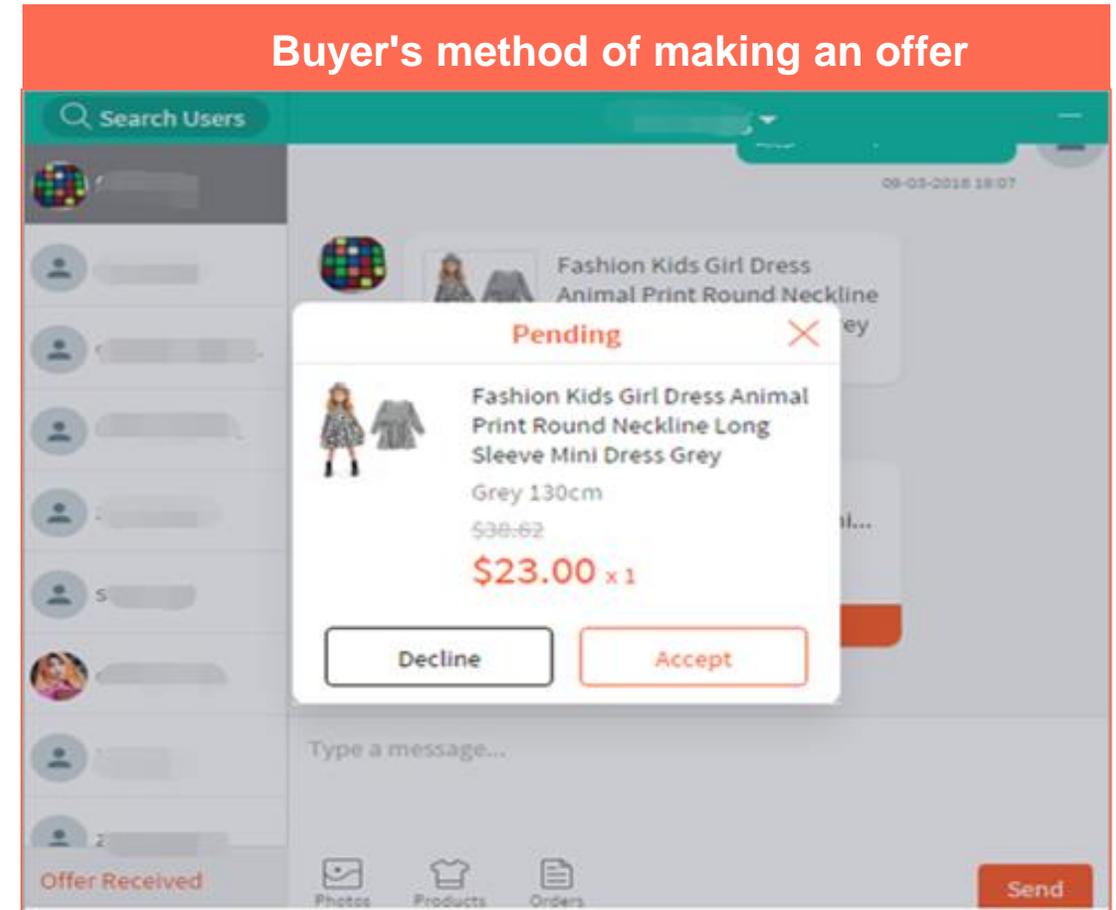

Making an offer

The seller sets to accept making an offer

1. If the seller opens [Accept making an offer] in [Shop Setting], the buyer can negotiate the price of the commodities by chatting. If the seller agrees to lower the price of the commodities, the buyer can make an offer by chatting.

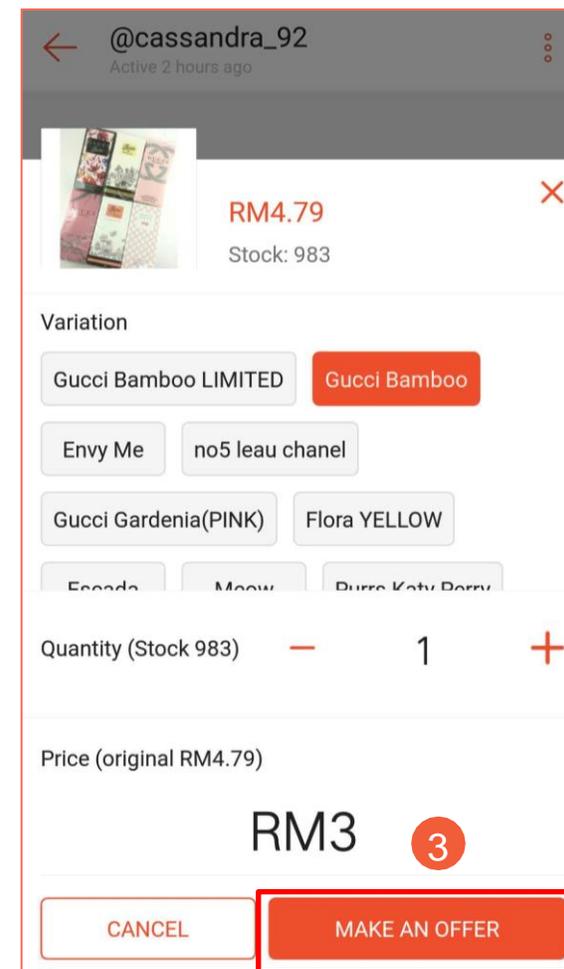

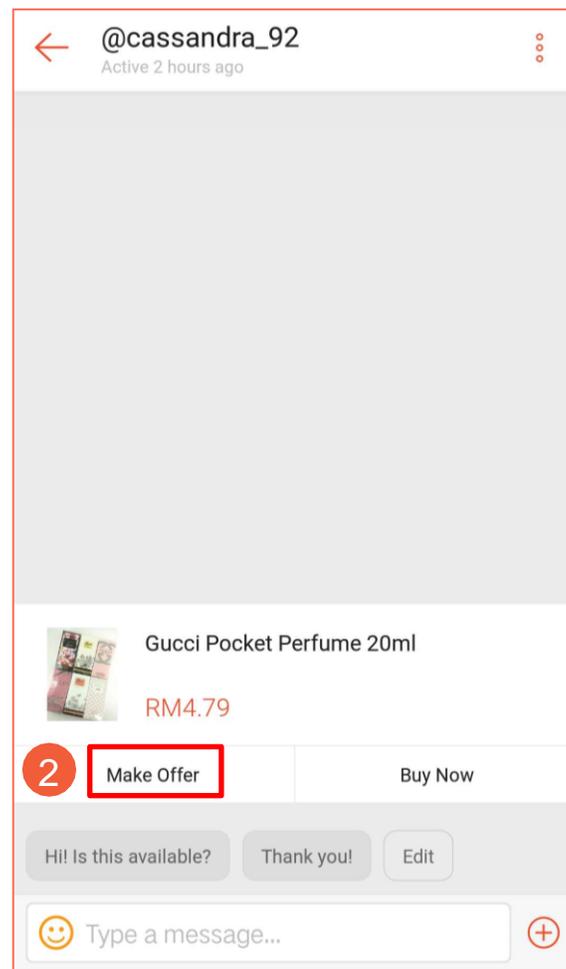

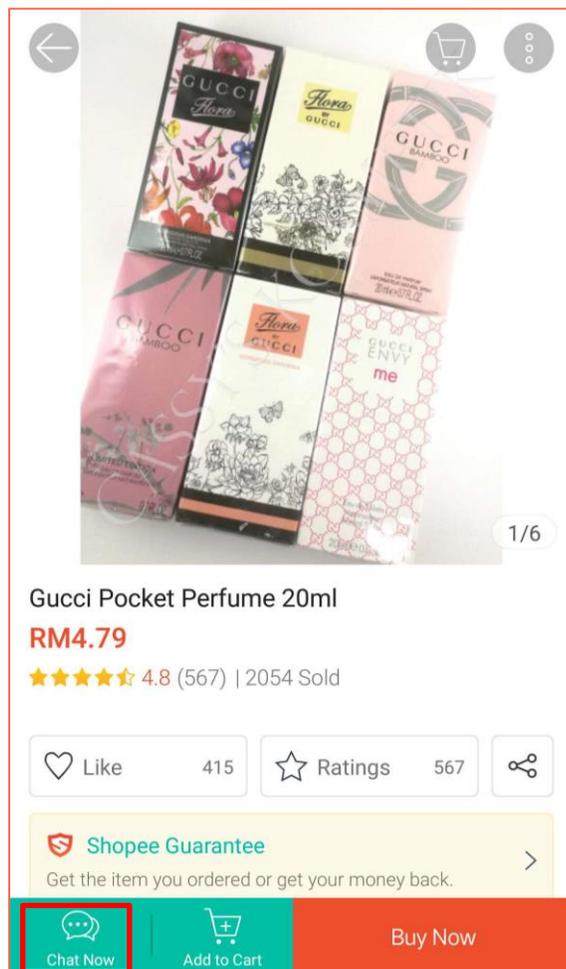

Buyer's method of making an offer

2. When the buyer makes an offer, the seller can see the buyer's operation in the chat window, click [Click to view] to see the latest price proposed by the buyer, and the seller can choose [Decline] or [Accept] to accept the new price proposed by the buyer.

* Note: Before the transaction is concluded, the buyer and the seller can make an offer several times.

II. Guide the buyer to have an offer

1 在APP的商品页面，点选“聊聊”按钮

2 在聊聊页面点选“出价”按钮

3 输入希望的商品价格，点选“完成”按钮

PART 3

**Answer to frequently
asked questions by
customer service staff**

Shopee

Consumers in Southeast Asian countries like to consult by chatting before placing an order, so we need to prepare answers to FAQs in advance.

During consultation of customers, we can choose different answers to customer questions.

Note: According to the different languages used by customers in destination countries, we have to answer the same question in different languages.

Module VIII

After-sales

After-sales

PART 1

Shipping

简介

卖家可以自行选择Shopee转运仓和首公里的寄送方式的功能，无需客户经理的协助。客户经理将不再协助卖家转仓或修改首公里寄送方式，有需求的卖家请自行在卖家中心【物流设置】中修改。

新功能优势

- 卖家可以在提交发货预报时灵活修改寄送方式；
- 增加卖家使用不同转运仓的灵活性

适用卖家

此功能向所有类型的跨境卖家开放，包括SIP（虾皮国际平台）卖家，ERP卖家等。

转运仓

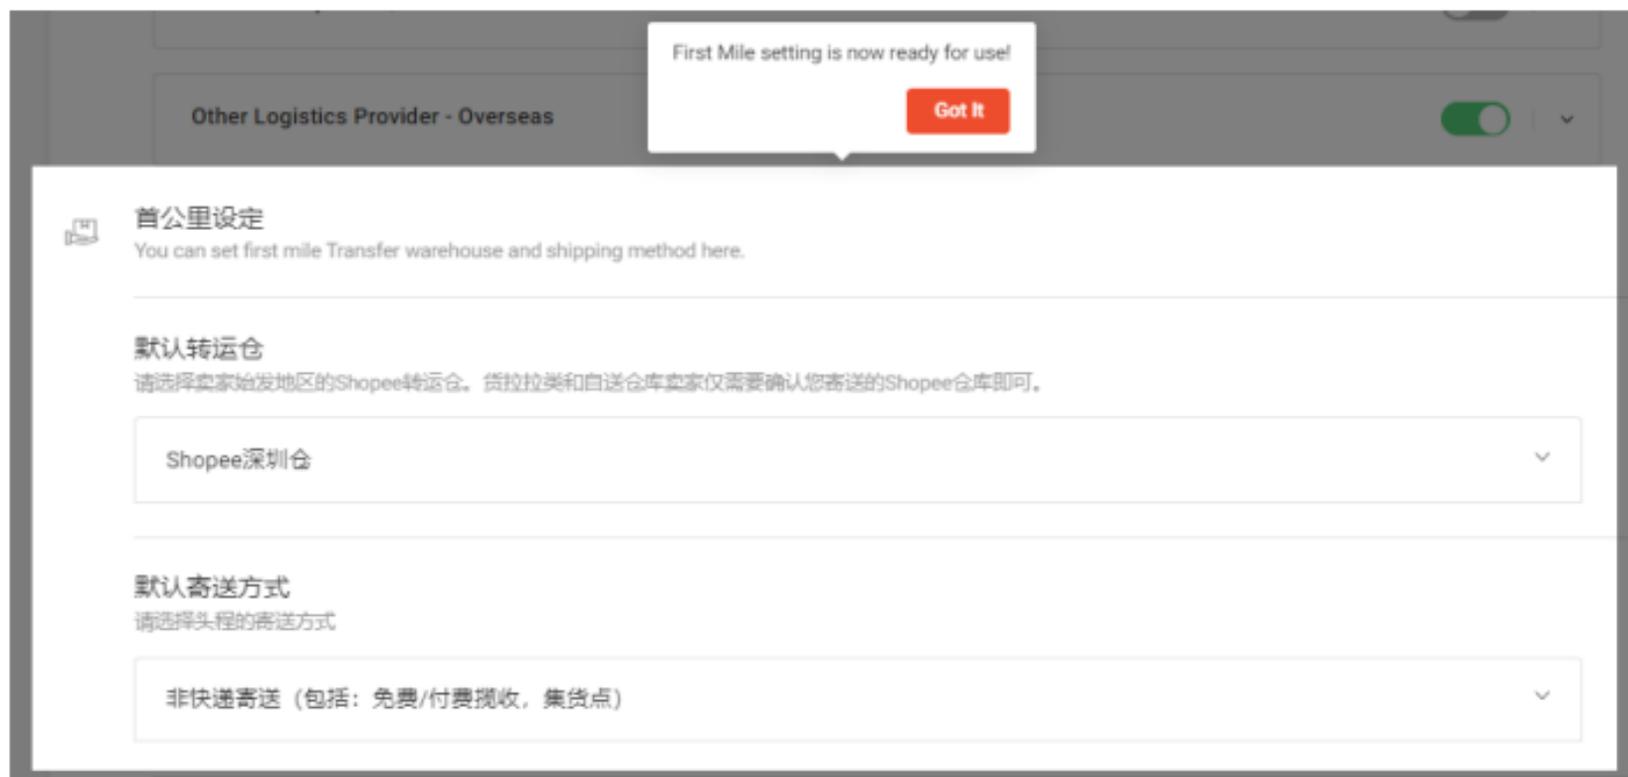

不同渠道包裹运输的中转仓库。Shopee平台的转运仓有：深圳仓，万色仓（包含上海仓，义乌仓，泉州仓），香港仓。

寄送方式

指首公里卖家的寄送方式，包括非快递寄送（Pickup）和快递寄送（Dropoff）。

打开选仓/选寄送方式功能后，您会收到以下3种方式的提醒：

- 您**首次**登录并打开【物流设置】页面时，会弹出选默认转运仓/默认寄送方式
- 在【我的订单】页面顶部 >> 发货页面
- 【批次出货】页面

打开选仓/选寄送方式功能后，您会收到以下3种方式的提醒：

- 您**首次**登录并打开【物流设置】页面时，会弹出选默认转运仓/默认寄送方式
- 在【我的订单】页面顶部 >> 发货页面
- 【批次出货】页面

The screenshot displays the Shopee order management interface. At the top, there are tabs for order status: 全部, 尚未付款, 待出货 5 (highlighted with a red box), 运送中, 已完成, 取消, and 退款/退货. Below the tabs is a search bar labeled 搜寻订单 and a date range filter for 订单成立时间 (2020/07/21 - 2020/08/20). A yellow notification banner (highlighted with a red box) contains the text: 当前头程转运仓为Shopee万色仓 (包含：上海仓/义乌仓/泉州仓)，一旦出货则不可修改。如需修改，请在出货前前往 [\[发货设置\]](#)。 At the bottom, there are buttons for 全部 5, 处理中 3, and 已处理 2. On the right side, there is a 筛选 dropdown menu set to 订单已确定日期 - 最新到... and a 批次出货 button.

打开选仓/选寄送方式功能后, 您会收到以下3种方式的提醒:

 大量寄件

! 当前头程转运仓为Shopee万色仓 (包含: 上海仓/义乌仓/泉州仓), 一旦出货则不可修改。如需修改, 请在出货前前往 [\[发货设置\]](#)。

操作步骤：【物流设置】 >> 【首公里设定】 >> 选择默认转运仓 >> 选择默认寄送方式

注意：转运仓修改只影响在修改后申请出货的订单，之前已经申请出货的订单不受影响。

注意：

使用ERP卖家还需要在卖家中心选择其默认的转运仓和寄送方式。

SIP（虾皮国际平台）卖家只需在主店铺中选择转运仓和寄送方式。SIP店铺将同步主店铺中的设置。

首公里设定

You can set first mile Transfer warehouse and shipping method here.

默认转运仓

请选择卖家始发地区的Shopee转运仓。货拉拉类和自送仓库卖家仅需要确认您寄送的Shopee仓库即可。

Shopee深圳仓

非快递寄送 (包括：免费/付费揽收，集货点)

快递寄送 (不包括：货拉拉类卖家，自送仓库)

II. Application for shipping number - specific operation of single order shipment order printing (SLS logistics)

1. On the [To Ship] page, click “Generate Mail Number” in the [Processing] order.
2. Click the [Print Shipping Order], download the corresponding pdf file, print the sheet as required (print with 10 * 10 thermal paper) and paste the sheet on the corresponding package.

***Note: For non-Brazil sites, please click the application for shipping code within the DTS time limit; for Brazil sites, click the application for shipping code within the DTS (working day) + 1 natural day;**

The screenshot displays the 'To Ship' page on the Shopee seller interface. At the top, there are navigation tabs: '全部' (All), '尚未付款' (Not Paid), '待出貨 (93)' (To Ship 93), '運送中 (49)' (In Transit 49), '完成' (Completed), '已取消' (Cancelled), and '退款/退貨' (Refund/Return). A red '出貨' (Ship) button is located in the top right corner.

The main content area shows a list of orders. The first order is for '衝評價12色 情侶大學t...' (12-color couple university t-shirt) with a price of \$649. It is marked as '待出貨' (To Ship) and has a '貨到付款' (Pay on Delivery) label. A red box highlights the '產生寄件編號' (Generate Shipping Number) button, with a red circle containing the number '1' next to it. The status '蝦皮店配' (Shopee Store Delivery) is also visible.

The second order is for '批發價 優質現貨 大尺...' (Wholesale price, high-quality ready stock, large size...) with a price of \$253. It is also marked as '待出貨' (To Ship) and has a '貨到付款' (Pay on Delivery) label. A red box highlights the '列印寄件單' (Print Shipping Order) button, with a red circle containing the number '2' next to it. The status '蝦皮店配-711' (Shopee Store Delivery-711) is visible.

At the bottom right, there is a '查看物流' (View Logistics) button. A small red circle with the number '1' is visible in the bottom right corner of the page.

II. Application for shipping number - specific operation of single order shipment order printing (SLS logistics)

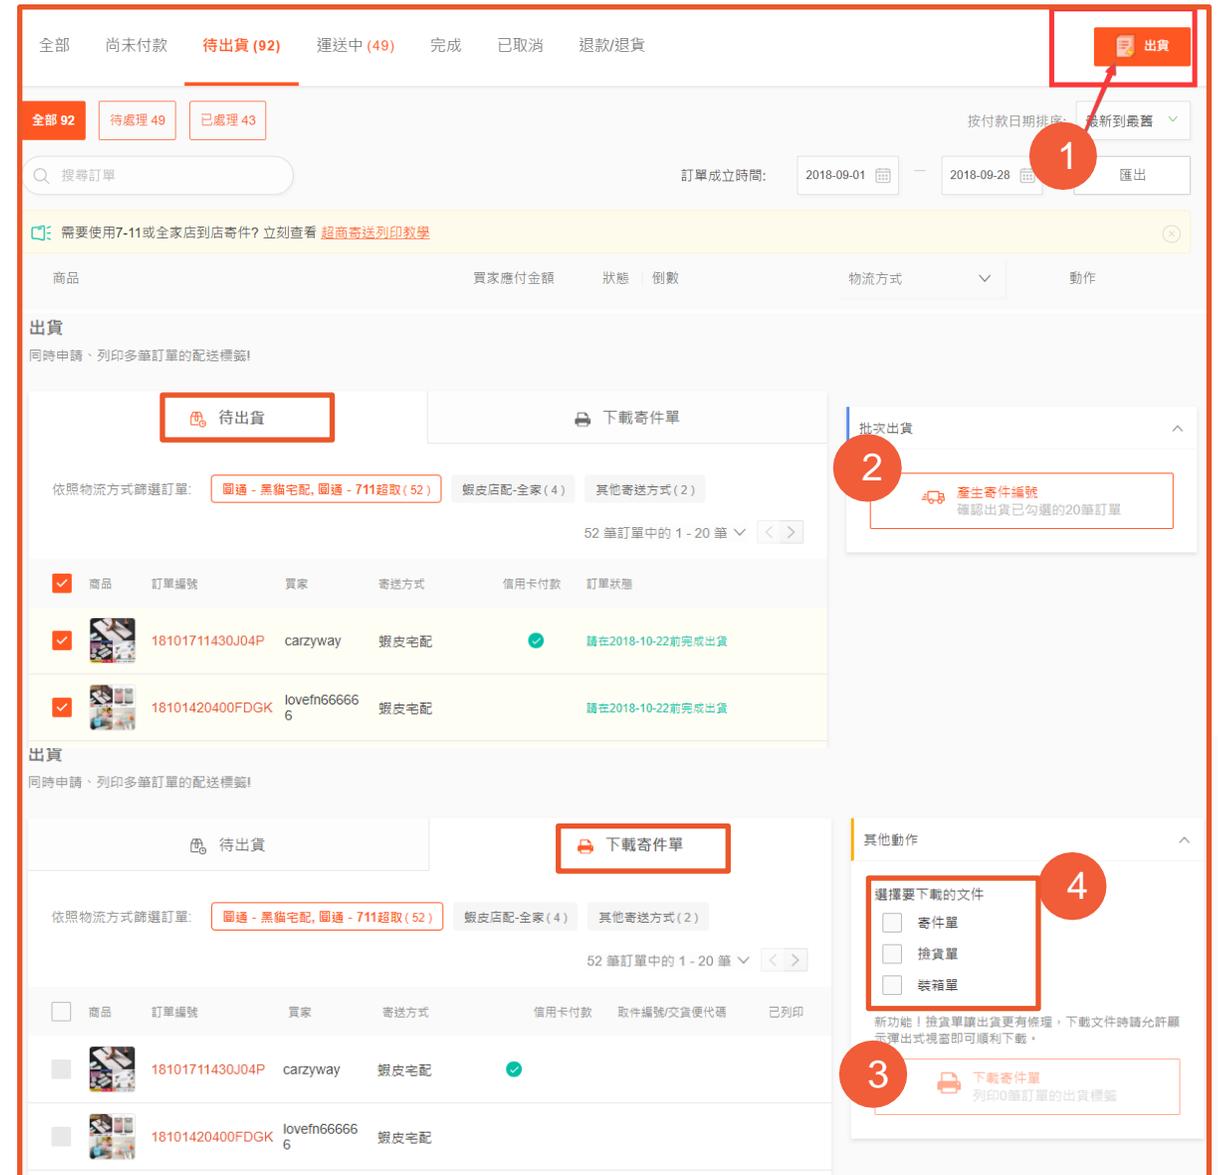

3. The seller packages the goods according to the packaging requirements and sends the goods to the corresponding warehouse. After receiving the goods, the sheet is scanned by the warehouse, **and the status of the goods is from [To Ship] to [Shipped], to complete the shipment.**

1. The corresponding DTS of different commodities in an order are also different. Which one?

The shipment time of such orders will be calculated as per the longest days of product preparation time, including pre-sale and non-pre-sale commodities.

2. Can different orders from the same buyer be combined into one package and shipped together?

No, one order No. corresponds to one logistics order No. If two orders are combined into one package for shipment, one of them is missing logistics information and is regarded as not shipped by the system.

3. Why can't you apply for shipping No.?

- ① The logistics method is not set.
- ② The products in the order are prohibited items.
- ③ A single order shall not exceed the corresponding amount. For example, the total value of the package provided by the shop at Taiwan sites shall not exceed NTD 20,000.
- ④ If it is not caused by the above reasons, it may be caused by the system. Please contact the manager for assistance.

3. In case of preparing for shipment, the buyer wants to modify the contact/address/logistics method/amount. What is to be done?

No, at present, after the order is issued, there is no way to modify any information of the order. In case of change, please contact the buyer to cancel the order and place a new order.

•Special conditions: The package of Taiwan site is on the way of logistics, [Close and Transfer Shops], and the buyer shall contact the customer service staff of Taiwan site for solution.

4. Why was the order cancelled during transportation?

① The commodities are overlong or overweight. ② The commodities are not scanned by the warehouse after timeout. ③ The contraband or empty package is transported. ④ The seller cancels the order.

6. Why is there no available delivery method?

① The logistics method is closed. ② The specification is filled in incorrectly when the commodities are updated.

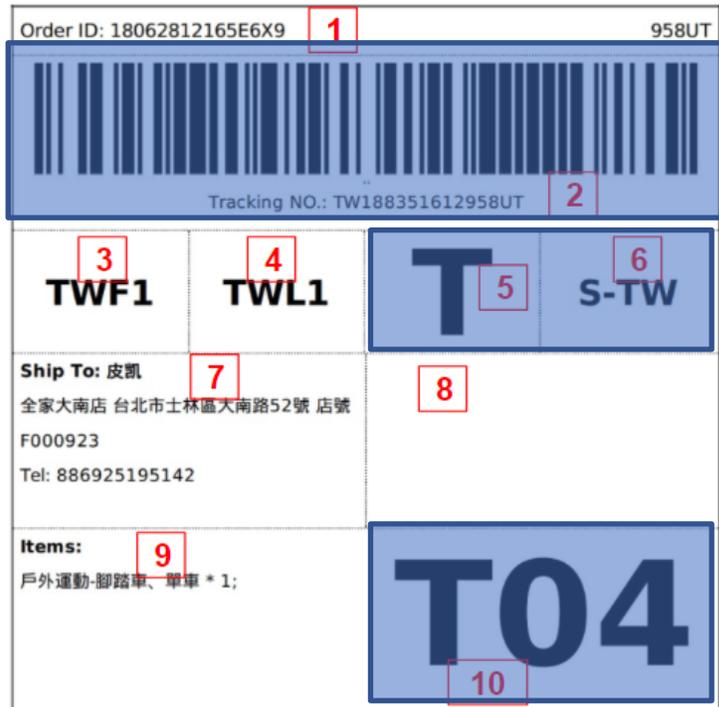

PART 2

Packaging tutorial

I. Sheet printing

Tips:

It is recommended to print the express sheet with thermal printer;
Check the "Fit to Border" in print settings;
Size of sheet (minimum): 10 cm * 10 cm;

Example of Sheet in Taiwan Site

Scan the barcode in WeChat. If the barcode interface is displayed, it is a valid order.

序号	描述	备注
1	Shopee订单号	从shopee.orders.GetOrderDetails接口中ordersn字段返回值
2	SLS物流追踪号和相应条码	面单右上角是SLS 物流追踪号的最后5位, 条码制式: 128
3	头程物流商	从Logistics - shopee.logistics.GetOrderLogistics API获取first_mile_name的值
4	尾程物流商	从Logistics - shopee.logistics.GetOrderLogistics API获取last_mile_name的值
5	商品类型: T(特货) / P (普货)	系统根据商品品类自行判断普货还是特货, 需要在先获取得到tracking_number之后, 卖家从shopee.order.GetOrderDetails API或者Logistics - shopee.logistics.GetOrderLogistics API获取goods_to_declare字段: 若为False, 则打印"P" 若为True, 则打印"T" 此值打印设置: 字号82, 粗体
6	Lane code "S" 代表Shopee + 目的国或地区	从Logistics - shopee.logistics.GetOrderLogistics API 获取lane_code字段返回值
7	买家姓名, 地址及电话号码	调用接口Order - shopee.order.GetOrderDetails 获取full_address字段信息
8	转运仓编号及地址	可为空
9	商品三级品类*数量	从shopee.order.GetOrderDetails API获取items中的字段信息
10	shopee提供的服务号码	从Logistics - shopee.logistics.GetOrderLogistics API获取service_code字段, 此值打印设置: 字号100, 粗体, 建议宽度大于4cm

***Pay attention to tracking number + barcode (not folded and too small, clear and scannable), site code, channel code, general goods**

II. Packaging specification

第一层包装，即最里面一层包装，是顾客最终收到的包裹，上面贴国际面单。

1. 包装完好，包装袋结实，不易破损
2. 包裹需贴上国际面单（不能折叠，不能太小）
3. 面单**条码**清晰（不能被胶带盖住，无折叠）

注意：同一个订单里的产品只能包一个包裹，一张面单只能贴在一个包裹上。一个面单分成两个包裹，贴两张相同面单，只会发出一个，另一个作为异常件退回。

包装完好、不透明
面单清晰且无褶皱

包装破损

无包装
无面单

面单折叠

透明胶
覆盖面单

Different SLS
packages are
wrapped.

The SLS sheet and
express sheet are
pasted on the same
layer of package.

Transparent
package

III. Packaging specification - magnetic products

The seller refers to the following steps for the package of magnetic products. **Do not directly use the plastic film and express bag for package**; if it is delivered to Shopee transit warehouse without proper package, **it shall be judged as contraband Class B and cannot be delivered to the destination because the strong magnetic force will affect air flight or other goods.**

带磁产品

1. 建议使用三层气泡棉包装，对磁铁有一定磁性屏蔽作用，且与外箱表面保持距离

2. 建议用纸箱包装，根据商品大小调整纸箱大小，建议纸箱最小边>10CM

IV. Packaging specification

- 1. The second layer of packaging:** The packages with only one site are put into a transport bag (mail bag/woven bag/carton, etc.), **and the identification card is attached at the seal (how to make it on the next page)**. The warehouse keeper opens the outer layer of bags, and there are packages from the same site.
- 2. The third layer of packaging:** Packages from multiple sites are sent (such as Malaysia, Singapore, Indonesia and Thailand). Note: First put the packages from the same site into a transport bag and mark the corresponding site code (as shown in the figure) SG (Singapore)/MY (Malaysia)/ID (Indonesia)/PH (Philippines)/TH (Thailand)/TW (Taiwan site)/VN (Vietnam), then put the transport bags at different sites into a large transport bag.
3. The outermost transport bag shall be pasted with the logistics express waybill sent to the domestic transfer warehouse, and the mailing address shall be written and sent to the Shopee transit warehouse.

First layer package

Second layer package (single site)

Third layer package (multiple sites)

V. Packaging specification - production of identification card

Identification card

- Specification of seal identification card: 10 * 10 cm
- Content: seller's company name, English abbreviation of shipment site, number of packages, Wise background registered account (East China warehouse) and commodity weight (East China warehouse)
- English abbreviations of all stations: SG (Singapore)/MY (Malaysia)/ID (Indonesia)/PH (Philippines)/TH (Thailand) /TW (Taiwan Site)/VN (Vietnam)

***It is forbidden to use discarded or normal SLS sheet as label, which is easy to cause the whole package to be issued as one lot.**

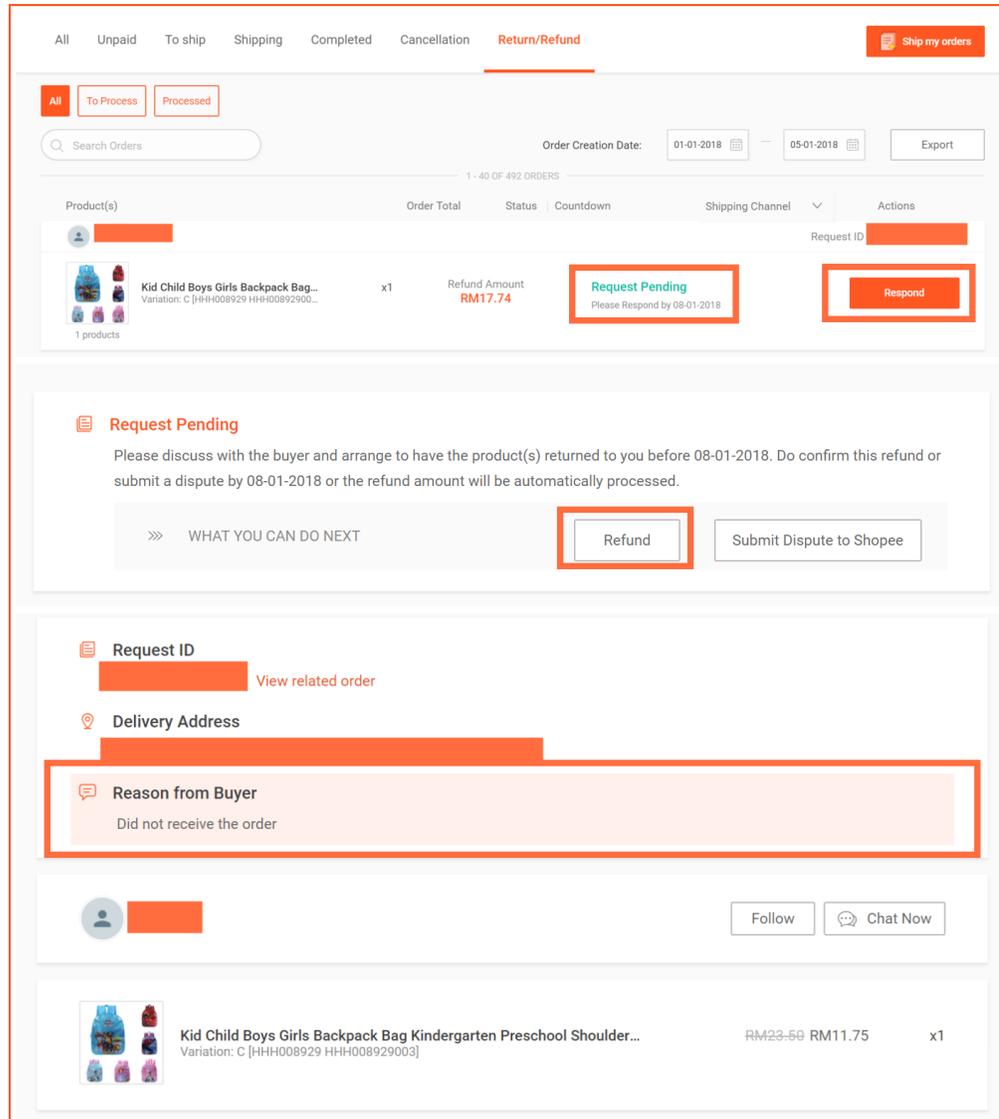

Identification card of Shenzhen warehouse	
Full name of company	
Shipment site English abbreviations	
Number of packages	

Identification card of East China warehouse (Shanghai/Quanzhou/Yiwu)	
Merchant ID	Wise background registered account
Full name of company	
Shipment site English abbreviations	
Number of packages	
Commodity weight	

PART 3

Return or refund

I. How to process the return or refund requests?

The screenshot shows the Shopee Seller Center interface for handling return and refund requests. At the top, there are navigation tabs: All, Unpaid, To ship, Shipping, Completed, Cancellation, and Return/Refund (which is selected). A 'Ship my orders' button is visible in the top right. Below the navigation, there are filters for 'All', 'To Process', and 'Processed'. A search bar for orders and date filters (01-01-2018 to 05-01-2018) are present. The main table lists orders with columns for Product(s), Order Total, Status, Countdown, Shipping Channel, and Actions. One order is highlighted with a 'Request Pending' status and a 'Respond' button. Below the table, there is a 'Request Pending' section with instructions and a 'Refund' button. Further down, there is a 'Request ID' section with a 'View related order' link and a 'Delivery Address' section. A 'Reason from Buyer' section is highlighted, showing the reason 'Did not receive the order'. At the bottom, there are 'Follow' and 'Chat Now' buttons, and a product listing for 'Kid Child Boys Girls Backpack Bag Kindergarten Preschool Shoulder...'. The product listing shows a price of RM23.59 and a refund amount of RM11.75 for quantity 1.

1. Before clicking “Confirm Receiving”, the buyer can make a refund or return request on Shopee platform in the following cases:

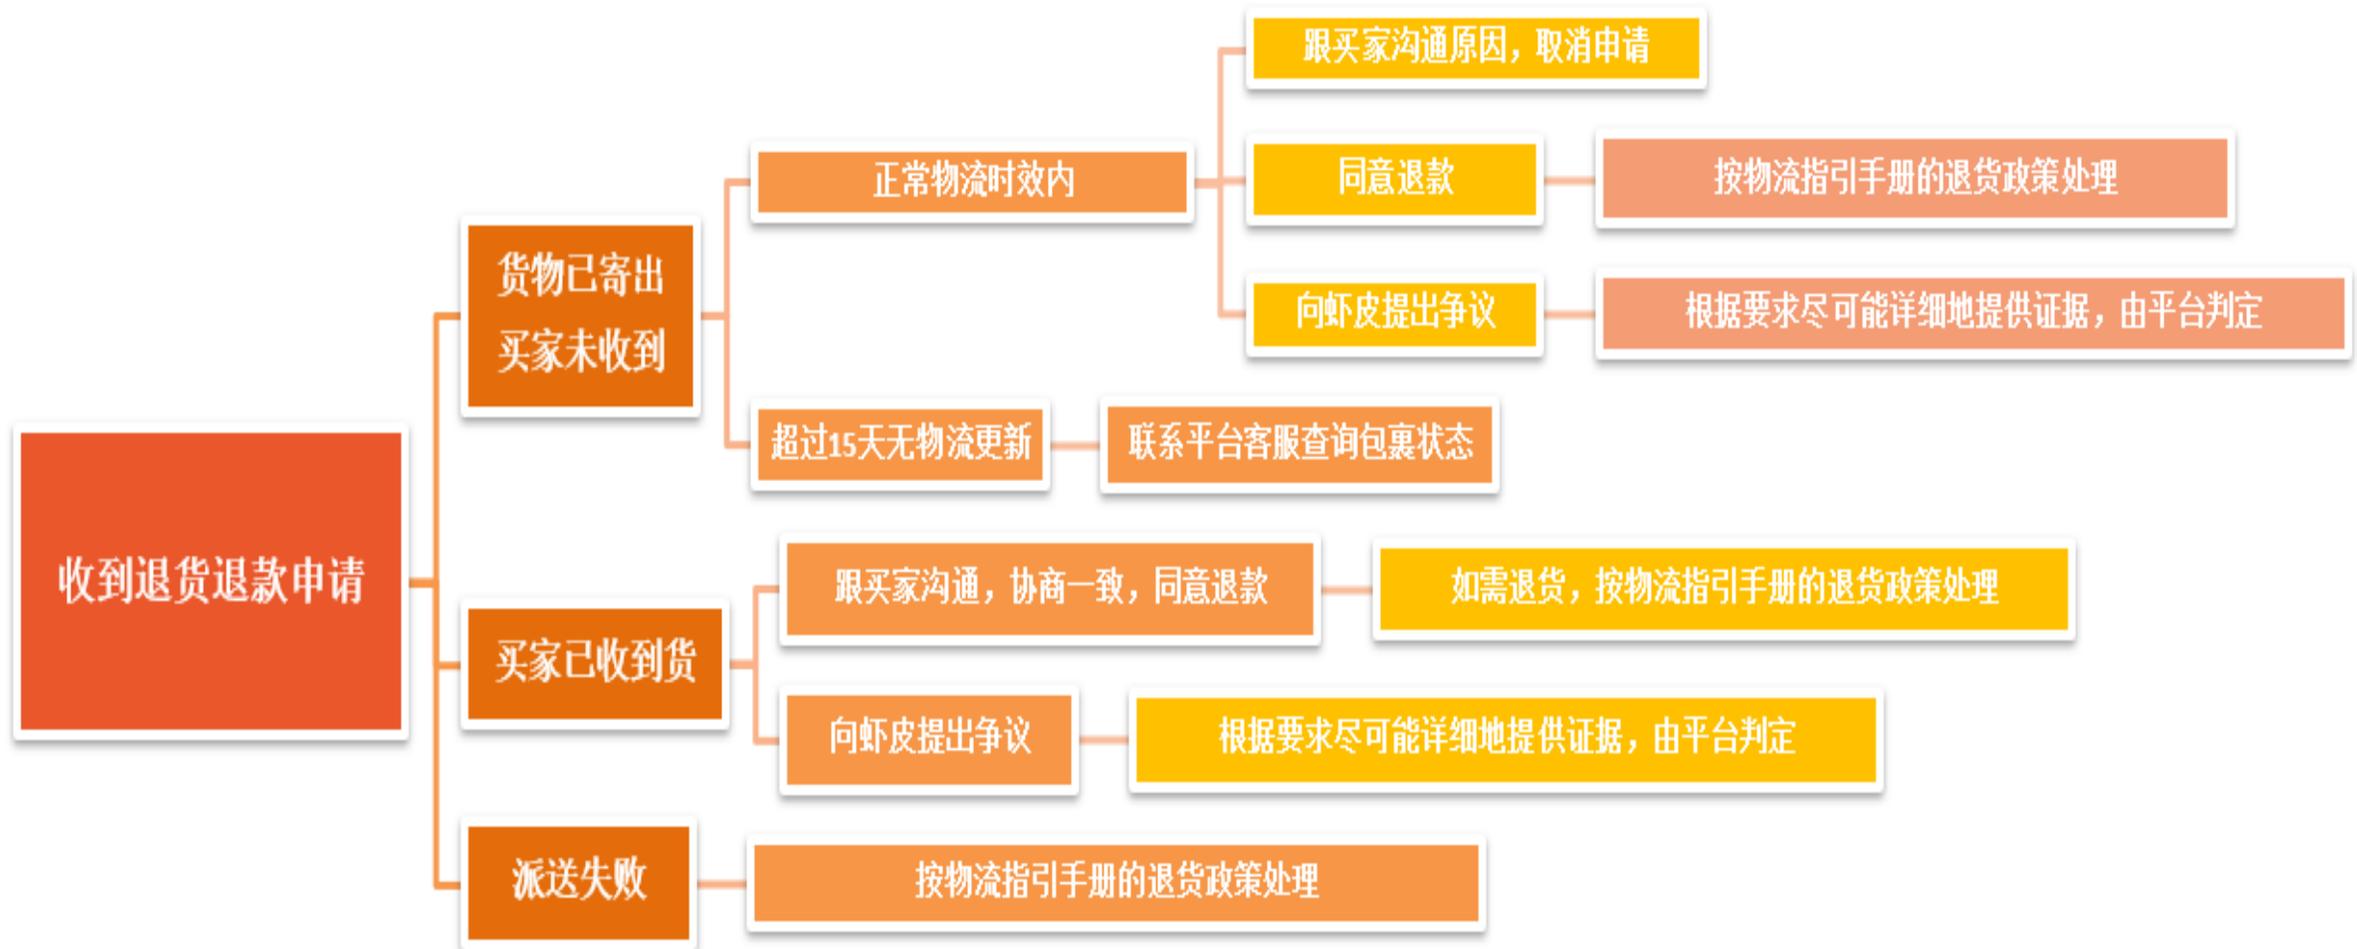

- The buyer does not receive the goods.
- The buyer receives the wrong product (wrong size, color and category).
- The buyer receives damaged or defective products.

2. After the buyer initiates the application, the order will enter [Return/Refund], and the business firm will also receive an email reminder. The seller can click the [Respond] button of the order for return or refund to enter the order details interface to view the application reasons;

3. The seller can click the [Refund] to refund the buyer, or choose the [Submit Dispute to Shopee] to raise a dispute with Shopee, and Shopee will intervene to deal with it.

***Note: The seller shall complete the [Respond] operation within the specified time; otherwise, the system will automatically agree to apply for a refund to the buyer.**

II. Common processes for return or refund

III. Common problems for return or refund

1. How to deal with the buyer's application for partial refund?

Except for Thailand sites, all other sites can refuse the refund after the buyer applies for a refund, and the local customer service staff will intervene. The partial refund process is as follows, and Thailand does not provide partial refund service for the time being.

- ① The buyer initiates the return or refund and indicates the amount to be refunded in the note.
- ② The seller clicks the dispute, notes the amount to be refunded, and attaches the chat records with the buyer (the content shall include the refunded commodities + number of pieces + amount). Please send the content to the buyer for confirmation. After receiving the reply, upload the screenshot as evidence.
- ③ The platform customer service staff will intervene in the operation.

2. How to return the package to be returned from all sites?

For specific policies, please scan the QR code or click the link to view the manual for guidance of Shopee platform cross-border logistics:
<https://shopee.cn/edu/article/4465>

- ① Open the website and click the attachment.

我们是不是可以做得更好?

如果您对Shopee平台跨境物流指引手册的使用或

<https://shopee.wjx.cn/jq/86114816.aspx>

- ② Check the description of the return section in the table of contents.

关于退货.....

3.1 关于退货.....

Manual for guidance of Shopee platform cross-border logistics

PART 4

Rating management

1. View order reviews and respond to buyer rating.

Click the [Shop Settings] - [Shop Rating] to view the scores of orders rated by all buyers. The seller clicks the [Reply] to view the buyer rating.

2. Rating time

The buyer shall rate the order within 15 days, and the seller is recommended to encourage the buyer to give a positive comment after the order is completed;

3. Rating modified by buyer

If a buyer gives a negative comment, it is recommended that the seller negotiate with the buyer to modify the rating in time. There is an opportunity to modify the rating within 30 days after the rating.

The steps of rating modified by buyer are as follows: [Me] > [My Purchase] > find the corresponding order [Shop Rating] > [Change Rating] > modify the rating and click “OK” to modify it.

Module IX

Platform Policy

Platform policy

PART 1

Shop scores and basic platform rules

Shop scores

Shop performance mainly includes the following aspects:

 首頁 > 我的賣場	Non-fulfillment rate (NFR) of orders (NFR)	Cancellation percentage + return/refund percentage to the total quantity of orders within the past 7 days. Only the order canceled by the seller will be included in the NFR of orders. NFR of orders is also the sum of order cancellation rate and return/refund rate of orders.
賣場	Cancellation rate of orders	Cancellation percentage to the total quantity of orders within the past 7 days. Only the order canceled by the seller will be included in the cancellation rate of orders. Return/refund orders will not be included in the cancellation rate of orders.
 賣場介紹	Return or refund rate	Percentage of orders in which the buyer requested a return or refund to the total orders within the past 7 days
 物流中心	Late-shipping rate	Orders of overdue shipment within the total orders within the past 7 days [Days to Ship (DTS) + 1 natural day]
 我的地址	Chat reply rate	Percentage of the seller reply within 12 hours after receiving new chat messages or offers (to the total orders) Automatic reply will not be included in the chat reply rate calculation (within the past 30 days)
 賣場評價	Shop scores	The overall ratings given by the buyer to the seller's shop: the seller can log into Seller Center and check the scores in [shop setting - shop evaluation], which is close to the total average of all the orders submitted by the buyer
 我的表現	Scores of commodities	The scores given by the buyer to the purchased products. The seller can view the scores given by the buyer on the corresponding products in [shop setting - shop evaluation].

 銀行帳號		

Basic platform rules - restriction rules on the quantity of commodity

1. Restriction on the quantity of commodity caused by shop types

2402 件商品

2402 / 1000

台湾市场

其他市场上架商品数量限制

店铺类型	标准	上架商品数量上限
成长店铺	开店时间 < 30 天 或 过去 30 天完成不同买家订单数 < 10 单 或 当季度未完成订单率/迟发货率 ≥ 3 分的店铺	500
有潜力店铺	开店时间 ≥ 30 天 并且 过去 30 天完成不同买家订单数 ≥ 10 单 并且 当季度未完成订单率/迟发货率 < 3 分的店铺	1000
有经验店铺	开店时间 ≥ 30 天 并且 过去 30 天完成不同买家订单数 ≥ 20 单 并且 当季度未完成订单率/迟发货率 < 3 分的店铺	3000
优选店铺	获得优选卖家资质的店铺	10000
商城店铺	获得商城卖家资质的店铺	20000

店铺类型	标准	上架商品数量上限
成长店铺	开店时间 < 30 天 或 累计完成不同买家订单数 < 5 单的店铺	1000
有潜力店铺	开店时间 ≥ 30 天 并且 累计完成不同买家订单数 ≥ 5 单的店铺	3000
有经验店铺	开店时间 ≥ 30 天 并且 累计完成不同买家订单数 ≥ 100 单的店铺	5000
优选店铺	获得优选卖家资质的店铺	10000
商城店铺	获得商城卖家资质的店铺	20000

印尼市场

	所有跨境卖家	优选卖家	商城卖家
卖场商品数量上限	10000	10000	50000

The Shopee evaluates the type of shops every Tuesday. In that week, the seller will display the commodity according to the quantity of released commodity for the corresponding type of the shop.

If the quantity of released commodity of a seller exceeds the limit, the seller will not be able to release commodity, and the commodity exceeding the limit will be hidden

Note:

1. When calculating the quantity of orders from different buyers completed by the seller in the past 30 days, the orders of SIP shop will be included in that of Taiwan shop
2. If the quantity of orders from different buyers completed by the seller in the past 30 days reaches the next level, the type of shop will be upgraded, and more commodity can be released. If the quantity of orders from different buyers completed by the seller in the past 30 days does not meet the standard, the type of shop will be degraded, and the limit of released commodity will be reduced.

Restriction rules on the quantity of commodity

2. Restriction on the quantity of commodity caused by the high proportion of pre-sale commodity

2402 件商品

2402 / 1000

Pre-sale commodity: commodity with days to ship (days of preparation set by the seller) > 3

Proportion of pre-sale commodity = pre-sale commodity/all commodity in the shop (excluding deleted and removed commodity)

市场	预售商品占比	预售商品数量	惩罚方式
越南	>=20%	>=100	仅 500 个商品可以上架
泰国	>=20%	>=100	仅 500 个商品可以上架
马来西亚	>=20%	>=100	仅 1000 个商品可以上架
新加坡	>=20%	>=100	仅 500 个商品可以上架
菲律宾	>=20%	>=100	仅 500 个商品可以上架
台湾	>=20%	>=100	仅 500 个商品可以上架
印尼	>=20%	>=100	仅 500 个商品可以上架

Note:

1. Due to too many pre-sale commodity in the shop, quantity restrictions of the commodity last for one week at a time. If the quantity or proportion of the seller's pre-sale commodity recalculated on Monday of the second week falls below the standard, quantity restrictions of the commodity will be canceled from Tuesday of the current week, and the hidden commodity will be launched again the seller
2. Ordinary sellers refer to sellers who are neither shopping-center sellers nor preferred sellers

Restriction rules on the quantity of commodity

3. Restriction on the quantity of commodity caused by deducting points

2402 件商品 2402 / 1000

	违反上架规则计分 ≥ 3	违反上架规则计分 ≥ 6
台湾市场	1000	500
马来西亚市场	500	100
非台湾/印尼/马来市场	200	50
印尼市场	当店铺违反上架规则计分达到 3/6/9/12 分的时候, 允许卖家展示 100 个商品	

Note: the quantity of released commodity is limited to 28 days each time. If the cumulative penalty scores within 28 days increase and reaches the next level, the penalty will be upgraded accordingly

Cancellation rules of orders

1. The buyer needs to cancel the orders after the payment: (COD is regarded as payment)

Site	Time of payment	Order status	Policies
TW	Within 24 hours after the payment	Shipped	Treat it by return or refund process The seller shall agree/refuse within the specified time
		Not shipped	The system cancels the orders in time
	The payment is completed more than 24 hours	Shipped	Treat it by return or refund process The seller shall agree/refuse within the specified time
		Not shipped	The seller shall agree/refuse within the specified time
Other sites	Within 1 hours after the payment	Shipped	Treat it by return or refund process The seller shall agree/refuse within the specified time
		Not shipped	The system cancels the orders in time
	The payment is completed more than 1 hours	Shipped	Treat it by return or refund process The seller shall agree/refuse within the specified time
		Not shipped	The seller shall agree/refuse within the specified time

Cancellation rules of orders

2. Cancellation of orders in case of late shipping:

DTS设置	站点	迟发货计算逻辑 (首公里/到仓扫描)	自动取消订单计算 逻辑 (点击发货)	自动取消订单计 算逻辑 (到仓扫描)
3 / 5- 10	非巴西 站点	DTS (工作日)	DTS (工作日)	DTS (工作日) +3 个自然日
	巴西站 点	DTS (工作日)+1个 自然日	DTS (工作日) +1个 自然日	

Note: DTS is the days to ship set by the seller's background

Cancellation rate of orders

One of graduation conditions - order cancellation rate = quantity of canceled orders/total quantity of orders

1. Type of orders canceled:

Orders canceled by the system	Orders canceled by the seller	Return or refund orders
1. Orders cancelled by the system caused by the seller's failure in shipment	1. Orders canceled by the seller's operation	1. Return or refund orders agreed by the seller 2. Return or refund orders agreed by the seller as agreed in the settlement of disputes

Note: DTS is the days to ship set by the seller's background

PART 2

Preferred seller

Advantages of preferred seller

1. **Status symbol:** the profile photo of a shop and all commodity in the shop are marked with "Shopee Preferred", which is displayed in the upper left corner of the commodity or the shop
2. **Customer flow preference:** buyers have more trust and recognition for the "Shopee Preferred" shop, which is conducive to improving the conversion rate of the shop
3. **Resource preference:** get the second kill resource state on the homepage
4. **Payment support:** in the "Shopee Preferred" shop, buyers can get more Shopee Coins after buying commodity.

How to become a preferred seller

The selection criteria for the preferred seller of Shopee site are as follows:

	泰国	台湾	新加坡	马来西亚	印尼	越南	菲律宾
过去日历月最少净订单数	100	50	30	75	30	100	50
贡献订单量的最少买家数	15	25	10	35	10	50	30
最低净成交总额 (当地货币)		30,000			100,000,000		
最高订单未完成率	10%	9.99%	4.99%			8%	14.99%
最高迟发货率	10%	9.99%	4.99%			8%	14.99%
最低聊聊回复率	75%	80%	70%	90%	80%	75%	75%
最低店铺评分 (实时)	4.5	4.75	4.6	4.6	4.5	4	4.5
预售商品最高占比	20%	10%	10%	5%	20%	30%	20%
最高卖家惩罚计分	0	0	0	0	0	0	0
允许超过预售商品占比天数	5	5	0	5	5	2	0

When selecting the preferred seller for each site, in addition to meeting the criteria for the corresponding scoring items in the form, the following additional conditions shall be met (no additional conditions for Indonesian site):

Taiwan markets	Philippine market
<ol style="list-style-type: none"> Credit card payment is supported in the shop; The total monthly sales volume is higher than NTD 30,000; There are no infringing and illegal commodity in the shop (such as brand cartoon infringement); The shop provides a 7-day appreciation period 	<ol style="list-style-type: none"> There are no fake and interior commodity in the shop; There are no frauds in the shop
Singapore markets	Other markets
<ol style="list-style-type: none"> There are no fake and interior commodity in the shop; All commodities in the shop are genuine 	<ol style="list-style-type: none"> There are no fake and interior commodity in the shop;

PART 3

Penalty scoring system

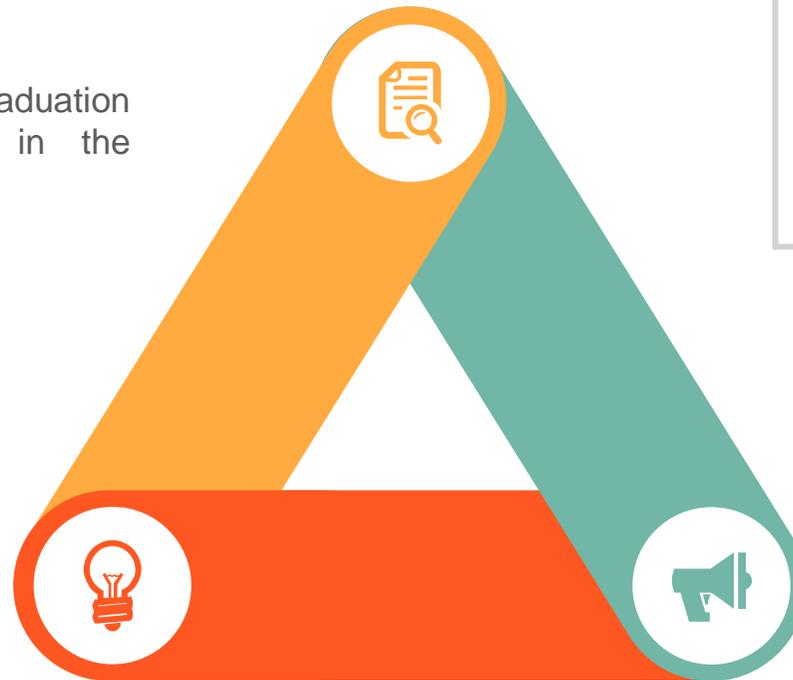

Why should the new shop pay attention to platform rules?

Effect No.1

It will affect the graduation results of the seller in the incubation period

Effect No.2

Once the scores are deducted, the qualification to obtain [Preferred Shop] will be lost

Points will be deducted for violating the rules

If the seller violates the rules of Shopee in the process of operation, corresponding penalty points will apply, and the seller's operation events will be limited based on different penalty points.

Effect No.3

Different deduction values will affect the customer flow, participation qualification, page display authority, etc. of the shop

Penalty scoring system and penalty measures

After the seller obtains 3/6/9/12/15 points in a quarter, the penalty corresponding to the points shown in the table below will apply. The “preferred seller” identification will be canceled after the penalty scores of the preferred seller reaches 3 points.

Cumulative penalty scores	3	6	9	12	15
Penalty level	Level 1	Level 2	Level 3	Level 4	Level 5
Be prohibited to participate in theme events of Shopee (28 days)	*	*	*	*	*
Be unable to enjoy freight or event subsidies of Shopee (28 days)		*	*	*	*
The commodity will not be displayed on the page (28 days)		*	*	*	*
The commodity will not be displayed on the “Search Result” column (28 days)			*	*	*
It is not allowed to create/modify the commodity (except changing inventories) (28 days)				*	*
The account will be frozen (28 days)					*

Note:

After the 28-day penalty expires, it will be automatically relieved, but if the scoring quarterly cycle does not end, the accumulated scores will not change

The cumulative penalty scores will only be cleared on Monday of the first week for each quarter

Note: the condition for graduation is to calculate the sum of all the points deducted during the incubation period, which will not be cleared

Computational logic of penalty scoring system

- **Every Monday**, new penalty scores will be included according to the violations of the previous week and accumulated with the existing penalty scores of the quarter;
- **On the first Monday of every quarter** (January, April, July and October), the penalty score of the previous quarter will be cleared.

For example:

卖家A

- 卖家A在第3周得到了3个惩罚积分，所以禁止参加Shopee主题活动28天
- 卖家在第7周会重新获得参加活动的权利
- 惩罚积分在下个季度的第一个周的周一清零

卖家B

- 卖家B在第3周得到了3个惩罚积分，所以禁止参加Shopee主题活动28天
- 卖家并没有提升自己的运营表现并在第5周得到了第6个惩罚积分
- 卖家除了不允许参加Shopee主题活动惩罚，接下来28天也不会得到运费补贴，商品也不会出现在浏览页面中
- 卖家在第9周会重新获得参加活动，运费补贴的权利，商品也会出现在浏览页面中
- 惩罚积分在下个季度的第一个周的周一清零

Items included in penalty score

The Penalty System of Shopee Sellers is a scoring system used by Shopee to measure whether its sellers comply with the rules of the Shopee platform. If the seller violates the rules of Shopee in the process of operation, corresponding penalty points will apply, and the seller's operation events will be limited based on different penalty points.

Shopee aims to remind sellers to abide by the rules of the platform and standardize their own operation through the seller's penalty scoring system, and also provide buyers with a healthier consumption experience.

Sub-items of the seller's penalty scoring system

1. Late Shipping Rate (LSR) and Non-Fulfillment Rate (NFR) ★
 2. Violation of the rules for putting commodity on sale ★
 3. Customer service ---- inappropriate and offensive words in the chat with shops via Liaoliao ★
 4. Fraudulent/abusive transportation
 5. Abusive platform resources

Inferior Listing

**Infringement
and
Counterfeiting**

DTS (Days To Ship)

The seller can set the DTS to 3 or 5-10 days, and the commodity with DTS set to 5-10 days are pre-sale commodity

1. 迟发货率

The order quantity of late shipping in the past 7 days

LSR=

The total order quantity of shipping in the past 7 days

Calculation of late shipping orders: The orders that are not scanned before the commodity are transported to the warehouse on DTS (working day) will be recorded as late shipping orders, and DTS + 1 natural journal in Brazil site will be recorded as late shipping orders

2. 未完成订单率

The non-fulfillment rate in the past 7 days

NFR=

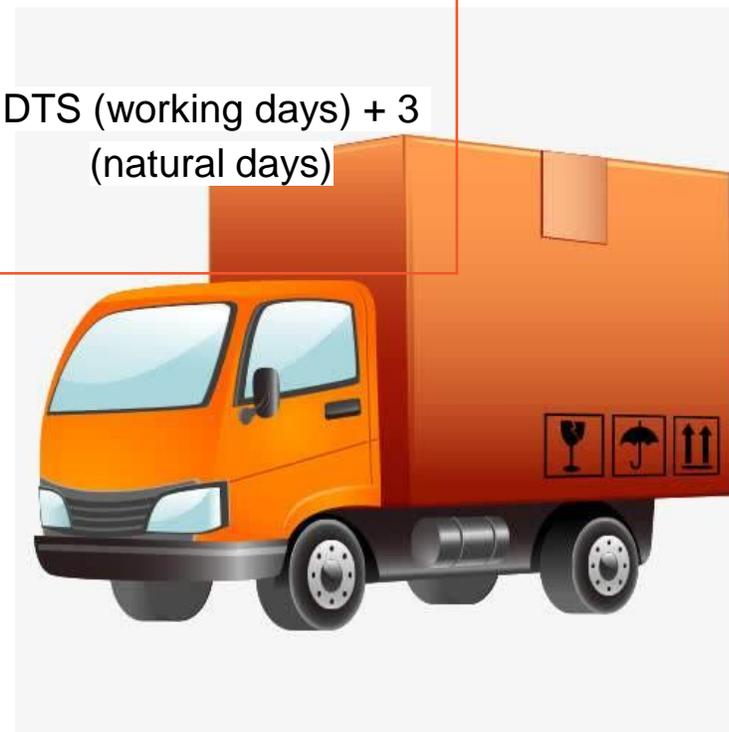

In the Last 7 days (non-fulfillment orders + net orders)

Net orders refer to those that have been completed but return or refunds have not been initiated

迟发货率 Late Shipping Rate (LSR)

Site	DTS settings	Late shipping calculation logic (first kilometer/scanning that is conducted before the commodity are transported to the warehouse)	Automatic order cancellation logic (Not-clicked shipment)	Calculation logic of the orders canceled automatically (clicked shipment but scanning before the commodity are transported to the warehouse)
Non-Brazil sites	3/5-10	DTS (working days)	DTS (working days)	DTS (working days) + 3 (natural days)
Brazil sites		DTS (working days) + +1 (natural days)	DTS (working days) + +1 (natural days)	

From January 25, 2021 (viewing the orders in the past 7 days, that is, the change starts from January 18), the calculation logic of late shipping orders and automatic order cancellation will be updated.

迟发货率 Late Shipping Rate (LSR)

Case I: The order was generated on **September 18 (Wednesday)**, how is it the late shipping? Days To Ship (DTS is 3)

一	二	三	四	五	六	日
26 廿六	27 廿七	28 廿八	29 廿九	30 初一	31 初二	1 初三
2 初四	3 抗战胜利... 初五	4 初六	5 初七	6 初八	7 初九	8 白露
9 十一	10 教师节	11 十三	12 十四	13 中秋节 休	14 十六 休	15 十七 休
16 十八	17 十九	18 二十 班	19 廿一	20 廿二	21 廿三	22 廿四
23 秋分	24 廿六	25 廿七	26 廿八	27 廿九	28 三十	29 初一 班
30 初二	1 国庆节 休	2 初四 休	3 初五 休	4 初六 休	5 初七 休	6 初八 休

DTS setting	Calculation logic of late shipping (scanning before the commodity are transported to the warehouse)
3/5-10	DTS (working days)

The order was **not scanned** by the warehouse before 23:59:59 on September 23, so it is regraded as **late shipping**.

迟发货率 Late Shipping Rate (LSR)

Case II: The order is generated on **September 19 (Thursday)**, how is regarded as the late shipping? Days To Ship (DTS is 3)

一	二	三	四	五	六	日
26 廿六	27 廿七	28 廿八	29 廿九	30 初一	31 初二	1 初三
2 初四	3 抗战胜利... 初五	4 初六	5 初七	6 初八	7 初九	8 白露
9 十一	10 教师节	11 十三	12 十四	13 中秋节 休	14 十六 休	15 十七 休
16 十八	17 十九	18 二十	19 廿一	20 廿二	21 廿三	22 廿四
23 秋分	24 廿六	25 廿七	26 廿八	27 廿九	28 三十	29 初一 班
30 初二	1 国庆节 休	2 初四 休	3 初五 休	4 初六 休	5 初七 休	6 初八 休

DTS setting	Calculation logic of late shipping (scanning before the commodity are transported to the warehouse)
3/5-10	DTS (working days)

The order was **not scanned** by the warehouse before 23:59:59 on September 24, so it is regraded as **late shipping**.

订单未完成率 Non-Fulfillment Rate (NFR)

The Calculation Formula for Non-Fulfillment Orders

- Non-fulfillment orders = ① orders canceled by the seller+
② The **return or refund** order successfully initiated by the buyer
③ Orders are automatically canceled due to Sellers' responsibility

$$\text{NFR} = \frac{\text{The non-fulfillment rate in the past 7 days}}{\text{Total orders in the past 7 days (non-fulfillment orders + net orders)}}$$

Calculation of the orders canceled automatically

Orders that are not clicked by DTS for shipment will be recorded as those which are automatically canceled (non-Brazilian sites)

At the Brazilian site, orders that are not clicked on DTS + 1 natural day will be recorded as those which are automatically canceled

DTS (working days) + orders that have not been scanned when commodity have been transported to the warehouse for 3 natural days will be recorded as those which are automatically canceled

Note: The exemption of logistics prescription is only for the working days set on DTS, and there is no exemption of logistics prescription (natural day).

Deduction logic of late shipping rate (LSR) and non-fulfillment rate (NFR)

The platform will calculate the late shipping rate and non-fulfillment rate of previous seven days every week. If any item of the non-fulfillment rate or late shipping rate fails to meet the standard, 1 point will be scored. If none of them meet the standard, 2 points will be scored. 2 points will be scored if any item of non-fulfillment rate or late shipping rate isn't up to the standard. In case of none of them is up to the standard, 4 points will be scored.

Short-term approach

- **Increase order quantity**—Store discounts, coupons, bundling sale, keyword advertising, participation in activities
- **Avoid new NFR/LSR**—Ensure that orders are no longer shipped late and canceled

Long-term approach

- **Stocking**—The source of commodity is stable and the commodity can be supplied in time/stocked up in advance before the activities
- **Packaging**—Monitor the packaging quality and reduce wrong shipment, missing shipment, overlong or overweight and damaged parts
- **Logistics**—Track warehouse scanning every day/select high-quality domestic logistics providers
- **Products**—Regularly assess the return or refund rates of suppliers' commodity, select the superior and eliminate the inferior/regularly update the commodity inventory

No Listing

- **Put on sale the Goods that are prohibited from being sold** (including contraband commodity by cross-border sellers, illegal commodity and commodity recalled by the local government, etc.)
- Place an advertisement or sell the commodity free of physical objects
- Replace with different products under the same product ID
- **Exaggerated and false discounts**
- The pictures for product description has the watermark to guide the content of the external platform
- Pink content in the product pictures or descriptions - please carefully read the special specifications and handling methods for the sale of adult products

Inferior Listing

- Errors in the setting of commodity category
- Duplicate listing of commodity (including duplicate listing of commodity by the same seller and different shops)
- Misleading pricing
- **Irrelevant keywords** (for example, the product title and label that are used or the description of relevant products are inconsistent with those of the commodity themselves)
- The picture quality is poor, and the area that is occupied by the commodity is less than 70% of the whole of the picture

Infringement and Counterfeiting

- Non-Taiwan sites: 1 point is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 2 points is scored
- Taiwan site: 2 points is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 3 points is scored
- 15 points will be scored if it is proved that counterfeit products are sold or pictures and texts of products are plagiarized

If the seller violates the rules for putting commodity on sale, 1 point is scored. In case of serious violation, 2 points is scored
If the seller violates the aforesaid rules for putting commodity on sale and puts similar illegal commodity on sale again after the commodity are deleted, an additional 1 pints will be scored for penalty.

Violation of rules for putting commodity on sale - no listing

1. Put on sale the Goods that are prohibited from being sold are put on sale - SLS

Each order of **Class A** contraband commodity scores **3 points**. Every 5 orders of **Class B** contraband commodity score **1 point**.

Note:
See the Manual for the Guidance of Logistics for details

The contraband commodity that have been seized is not limited to the items in the table. Whether their physical objects have the functions of the dangerous commodity banned by the General Administration of Civil Aviation (GACA) or factors threatening the safe flight of aircraft or are the commodity that are restricted for export by the State Administration for Entry-Exit Inspection and Quarantine of the People's Republic of China and the General Administration of Customs of the People's Republic of China (GACC) will be the final judgment of category.

If the seller wants to confirm whether the commodity can be mailed, he/she can consult the warehouse customer service staff
See the Manual for the Guidance of Shopee Logistics for details for contact information

Violation of rules for putting commodity on sale - no listing

2. Exaggerated and false discount = increase of the original price and then discount promotion

Definition of exaggerated and false discounts

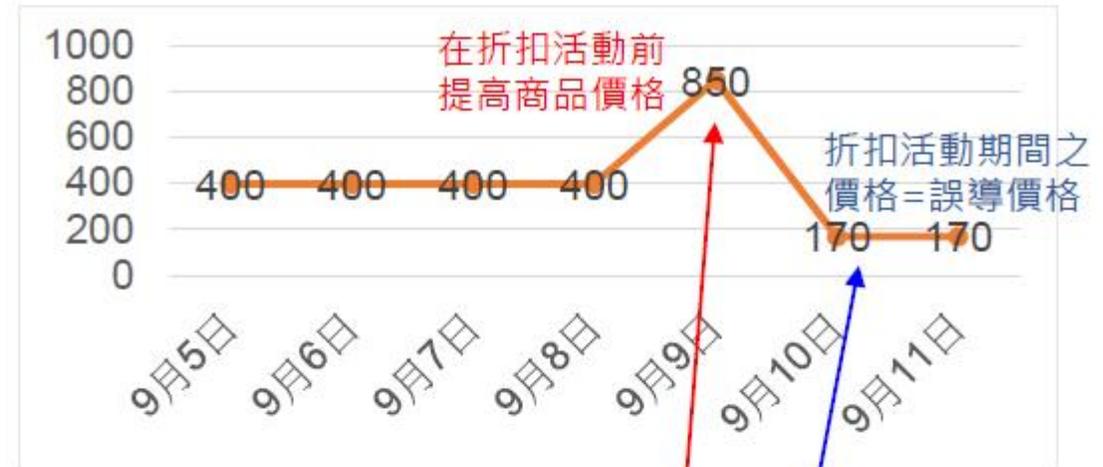

Exaggerating and false discounts means that sellers raise prices and then give large discount before discount activities. If business firms have exaggerated and false discount behavior, the Shopee will delete the product within two days and score the sellers according to the standard of the seller's scoring system.

How to determine the discount is exaggerated and false?

As long as the commodity have a discount mark (whether set by the Shopee platform or the Seller itself), and there is a status of inflated statement, it will be deleted and scored.

How to avoid deduction?

- **Before putting on sale**, the cost of the commodity and the discount space shall be included in the price to **reserve the discount space**;
- The price of the commodity without sales basis can be changed by **deleting the commodity** and then **uploading** them again;
- The original price of the hot-selling products that have been sold can be increased due to the rise in price. After the commodity are investigated and dealt with by the system, the business firms can provide the corresponding certificate for the rise in price to the operation manager for appeal.

- **Exaggerated and false discounts**
- The pictures for product description has the watermark to guide the content of the external platform
- Pink content in the product pictures or descriptions - please carefully read the special specifications and handling methods for the sale of adult products

Inferior Listing

- Errors in the setting of commodity category
- **Duplicate listing of commodity** (including duplicate listing of commodity by the same seller and different shops)
- Misleading pricing
- **Irrelevant keywords** (for example, the product title and label that are used or the description of relevant products are inconsistent with those of the commodity themselves)
- The picture quality is poor, and the area that is occupied by the commodity is less than 70% of the whole of the picture

Infringement, counterfeiting and others

- Non-Taiwan sites: 1 point is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 2 points is scored
- Taiwan site: 2 points is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 3 points is scored
- 15 points will be scored if it is proved that counterfeit products are sold or pictures and texts of products are plagiarized

If the seller violates the rules for putting commodity on sale in the previous month, 1 point is scored. In case of serious violation, 2 points is scored

If the seller violates the aforesaid rules for putting commodity on sale and puts similar illegal commodity on sale again after the commodity are deleted, an additional 1 pints will be scored for penalty.

Violation of rules for putting commodity on sale - inferior listing

1. Duplicate listing

The definition of the duplicate listing of commodity is:

There is no obvious difference between the commodity that are put on sale. Duplicate listing of the same product is strictly prohibited and will be deleted. The regulation is designed to ensure that every buyer can have the best browsing experience and avoid the seller's improper dominance of the search results on the Shopee.

Common types (the same site):

- 1. Publish the commodity repetitively in different commodity categories**
- 2. Put the same products with different specifications on sale repetitively**
- 3. Publish the same commodity at different prices**

Handling method: The commodity will be deleted directly with points deducted

In order to provide better user experience for the buyers on Shopee platform, all sites of Shopee platform have begun to monitor the duplicate listing of commodity **between shops of different sellers** in the platform. Duplicate listing of commodity refers to the behavior that sellers repetitively publish the same commodity in different shops. The commodity that is listed repetitively will be deleted by the platform, and the seller's penalty scoring system will score the penalty points to the seller.

Violation of rules for putting commodity on sale - inferior listing

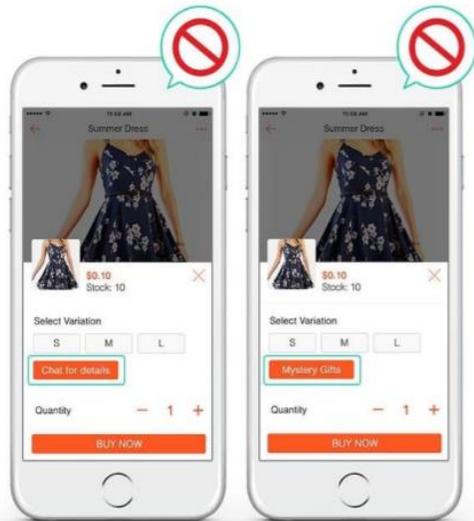

2. Misleading pricing

Sellers set too high or too low prices on their own commodity to win more exposure to customers, but they aren't really willing to sell the listed commodity. The accessory of commodity shall not be listed separately, but it, together with the original commodity, shall be regarded as a commodity with different attributes of the same commodity.

Handling method: The commodity will be deleted directly with points deducted

举例 1:

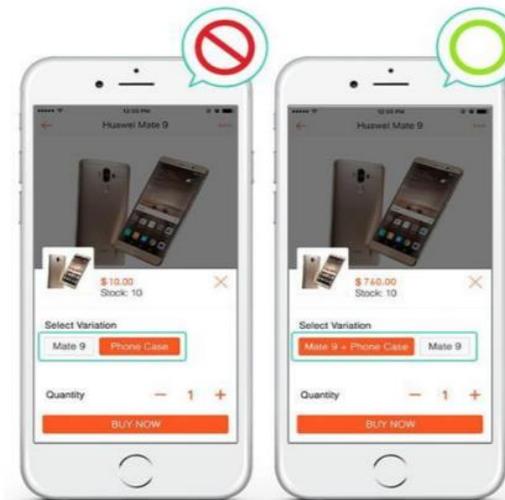

卖家将商品价格设置为远低于 (例如 0.10) 或者远高于商品市场价格 (例如 9999) 会被系统删除。

举例 2:

当销售手机套组的时候, 手机 (价值\$750) 和手机壳 (价值\$10)

错误做法: \$750 手机, \$10 手机壳

正确做法: \$750 手机, \$760 手机+手机壳

Violation of rules for putting commodity on sale - inferior listing

3. Abuse of keywords/brands and attributes

If the information contained in the commodity does not correspond to or is not related to the commodity sold, it will be regarded as listed junk commodity.

Handling method: The commodity is notified to be pulled from shelves for the first time. If it is still nonconforming after being uploaded again, it will be deleted with its points deducted. Repetitive violations may result in the frozen account of the seller.

Type	Example:	Correct method
Abuse of keywords/brands	<ul style="list-style-type: none">The commodity title contains multiple or irrelevant brand names/keywords: for example, “women’s pants, skirts and shirts”, “LANEIGE Dior SK-II moisturizing cream”Irrelevant keywords appear in the commodity title: for example, “Dell monitor not ASUS, Samsung, LG TV”	<ul style="list-style-type: none">According to the commodity title format recommended by Shopee: brand + product name + model. For example, Innisfree Green Tea Serum.Ensure that all keywords in the title and description are accurate and relevant to the commodity sold. Do not include inaccurate/irrelevant keywords in the product title.
Abuse of attributes	<ul style="list-style-type: none">The brand name appears repetitively or multiple brand names appear, such as “Nike, Nike, Nike” “Nike, Puma, Adidas”Other attribute information is inaccurate, for example “top selling product” written in the attributeInaccurate brand attributes, for instance “Chinese brand”	<ul style="list-style-type: none">Enter the accurate attributes of commodity classification, including brand name, model and warranty period.If the commodity has no brand name, please select “No brand”

Violation of the rules for putting commodity on sale

No Listing

- Put on sale the **Goods that are prohibited from being sold** (including contraband commodity by cross-border sellers, illegal commodity and commodity recalled by the local government, etc.)
- Place an advertisement or sell the commodity free of physical objects
- Replace with different products under the same product ID
- **Exaggerated and false discounts**
- The pictures for product description has the watermark to guide the content of the external platform
- Pink content in the product pictures or descriptions - please carefully read the special specifications and handling methods for the sale of adult products

Inferior Listing

- Errors in the setting of commodity category
- Duplicate listing of commodity (including duplicate listing of commodity by the same seller and different shops)
- Misleading pricing
- **Irrelevant keywords** (for example, the product title and label that are used or the description of relevant products are inconsistent with those of the commodity themselves)
- The picture quality is poor, and the area that is occupied by the commodity is less than 70% of the whole of the picture

Infringement, counterfeiting and others

- Non-Taiwan sites: 1 point is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 2 points is scored
- Taiwan site: 2 points is scored for the commodity that violate intellectual property rights or counterfeit products. In case of serious violation, 3 points is scored
- 15 points will be scored if it is proved that counterfeit products are sold or pictures and texts of products are plagiarized

If the seller violates the rules for putting commodity on sale in the previous month, 1 point is scored. In case of serious violation, 2 points is scored

If the seller violates the aforesaid rules for putting commodity on sale and puts similar illegal commodity on sale again after the commodity are deleted, an additional 1 pints will be scored for penalty.

Violation of rules for putting commodity on sale - infringement and counterfeiting

If the seller is complained of infringement for the first time, Shopee platform will remove the corresponding infringing commodity from the shelves. If the seller is complained of infringement again, Shopee platform will temporarily freeze the seller's account for 7 days. In case the seller account is complained of infringement once more after the account is unfrozen, the account will be frozen for 7 days again, the rest may be deduced by analogy (the number of infringement began to accumulate on March 27, 2017).

Shopee platform may directly close the account of the complained sellers who have violated the rule seriously or whose cumulative infringement is excessive

Duplicate listing of commodity by cross-border sellers and local sellers

In case the seller, without permission, uses the commodity pictures of other sellers as his/her own commodity pictures, or the commodity information of other sellers as his own commodity information, the behavior will be judged as piracy of pictures or commodity information.

Site	Penalty
Taiwan site	<ul style="list-style-type: none">• 15 points for penalty
Thailand site	<ul style="list-style-type: none">• The commodity that is listed repetitively will be deleted and 1 point will be scored for penalty,• 2 points will be scored for the penalty of serious duplicate listing.• If the number of commodity listed repetitively by a seller accounts for a certain standard of the total number of commodity of sellers, 15 points will be scored for penalty, and his/her account number will be frozen for 28 days.
Malaysian site	<ul style="list-style-type: none">• The commodity that is listed repetitively will be deleted and 1 point will be scored for penalty,• 2 points will be scored for the penalty of serious duplicate listing. Meanwhile, if there are serious violations after manual inspection, the shop will be frozen.

Violation of the rules for putting commodity on sale - other specifications

The commodity title shall not contain the keyword related to Shopee activities

市场	泰国、新加坡	菲律宾	马来西亚、印尼、越南
违反规则的商品	商品标题中带有"Big sale 11.11", "11.11 Big sale", "< Shopee 12.12 > ", "< Shopee 11.11 > ", "Shopee 9.9 ", 等关键词	商品标题中带有"Big sale 11.11", "11.11 Big sale", "< Shopee 12.12 > ", "< Shopee 11.11 > ", "Shopee 9.9 "等关键词.	商品标题中带有"Big sale 11.11", "11.11 Big sale", "< Shopee 12.12 > ", "< Shopee 11.11 > ", "Shopee 9.9 ",等关键词 且并没有实际商品 (见下图)
处理方法	下架该商品	删除该商品	删除该商品

The sellers are prohibited from uploading quickly in Indonesian market

The sellers are required to adjust the upload speed of ERP to at most 5 SKUs per minute, which can avoid freezing the account. If the upload speed is greater than the requirement, the shop will be frozen

Inappropriate speeches and offensive behaviors in shop chat

与买家沟通中不当言语及行为	计分
过去7天卖家因自身因素通过聊聊请买家取消订单	2
过去7天在商品评论中使用辱骂性话语回复买家	2
过去7天在聊聊中使用辱骂性话语回复买家	2
过去30天订单数 ≥ 10 且聊聊回应率 $\leq 20\%$	1

卖家因素指：商品缺货、商品损坏、价格设定错误等状况。但若为合理说明性质或非卖家自身的问题，且可以从聊聊信息中判断，卖家将不会被计分。

过去7天评论及聊聊中使用辱骂性话语的卖家将计2惩罚计分。若为优选卖家，同时将移除优选卖家资格。

若卖家在过去30天订单数 ≥ 10 ，并且聊聊回应率未超过20%，将计1惩罚计分。

Inappropriate speeches and offensive behaviors in shop chat

The seller guides the buyer to other platforms

On the Shopee platform, the sellers are prohibited from guiding buyers to leave Shopee platform via LiaoLiao to complete transactions. Once such behaviors are found, the seller will be punished accordingly.

Behavior 1:

The messages that are repetitively sent by a seller to multiple buyers contain, but not limited to:

- Promoting the seller's commodity or services on other platforms
- Guiding buyers to other websites
- Sending messages unrelated to Shopee
- Spreading the seller's personal contact information and have no clear sales intention on Shopee platform

Once a seller is found to have such behaviors, his/her shop will be closed

Behavior 2:

- A seller mentioned many times in the LiaoLiao and intended to guide the buyer to other platforms

If A seller is found to have such behavior for the first time, it will be warned. If the seller is found to have such behavior for the second time, the shop will be closed

Fraudulent/abusive transportation

A seller transports empty packages or commodity that do not match its order

Shopee logistics will check sellers' transportation of commodity every day. If it is found that a seller transports empty packages or commodity that do not match its order, and such behaviors reach a certain quantity, the seller will be treated as follows:

	违反规则	严重违反规则
初次	警告	冻结店铺 28 天或关店
第二次	冻结店铺 28 天	关店
第三次	关店	-

Abusive platform resources

If a seller is found to have the following abuse of platform resources, it will be punished accordingly:

滥用行为	惩罚计分
被系统侦测到的滥用行为	1
查实刷单、自买自卖行为	账户永久性冻结
查实滥用折扣代码行为	账户永久性冻结
假一赔二案成立/Shopee 抽查确实为假货、仿品	15
系统侦测到卖家未填订单号点击发货或伪造/错误的物流单号	3

Note: If the system detects that a seller has not filled in the order number of equal to or greater than 3 orders and greater than 50% of the orders, and clicked shipment or has had counterfeit/wrong logistics order number in the past 7 days, the seller will score 3 points for penalty.

PART 4

Channel restrictions on prohibited commodity and logistics

What is the commodity that are prohibited from being sold?

The commodity that are prohibited from being sold refer to commodity that are not allowed to be sold by local laws and regulations or Shopee commodity specifications. including:

The Products that are not allowed to be sold online in various countries and regions;

The products that are only allowed to sell products by sellers with local business licenses in various countries and region;

The Products that are prohibited from being sold due to customs reasons in various countries and regions.

Which products are prohibited on Shopee?

Products listed on Shopee should comply with local laws, as well as Shopee's terms and policies. It is the seller's responsibility to check before listing the products.

Do note that this list might be updated from time to time, so please visit these pages regularly for updates:

Actively attract followers to improve commodity exposure

Customer attraction inside the site:

- Get followers by interaction with buyers:

Pay attention to every chat opportunity, and ask the opposite side to follow your shop even if he/she doesn't buy your commodities now

- Follower discount:

Sellers can encourage buyers to give a "like" to their products or follow their shops, and give discounts or gifts as rewards at the next purchase

- Set up following gift

Buyers who follow a seller's shop for the first time can receive corresponding coupons

- Actively post feed posts

Actively release the trends of popular products/new products in the shop, which can be trend/funny matter sharing, to attract the following of buyers, and promote the transformation to conclusion of business through coupons;

Customer attraction outside the site:

Attract customers through external websites such as Facebook

Take the initiative to attract followers, interact with followers, and push the news of new products to followers when the shop has something new

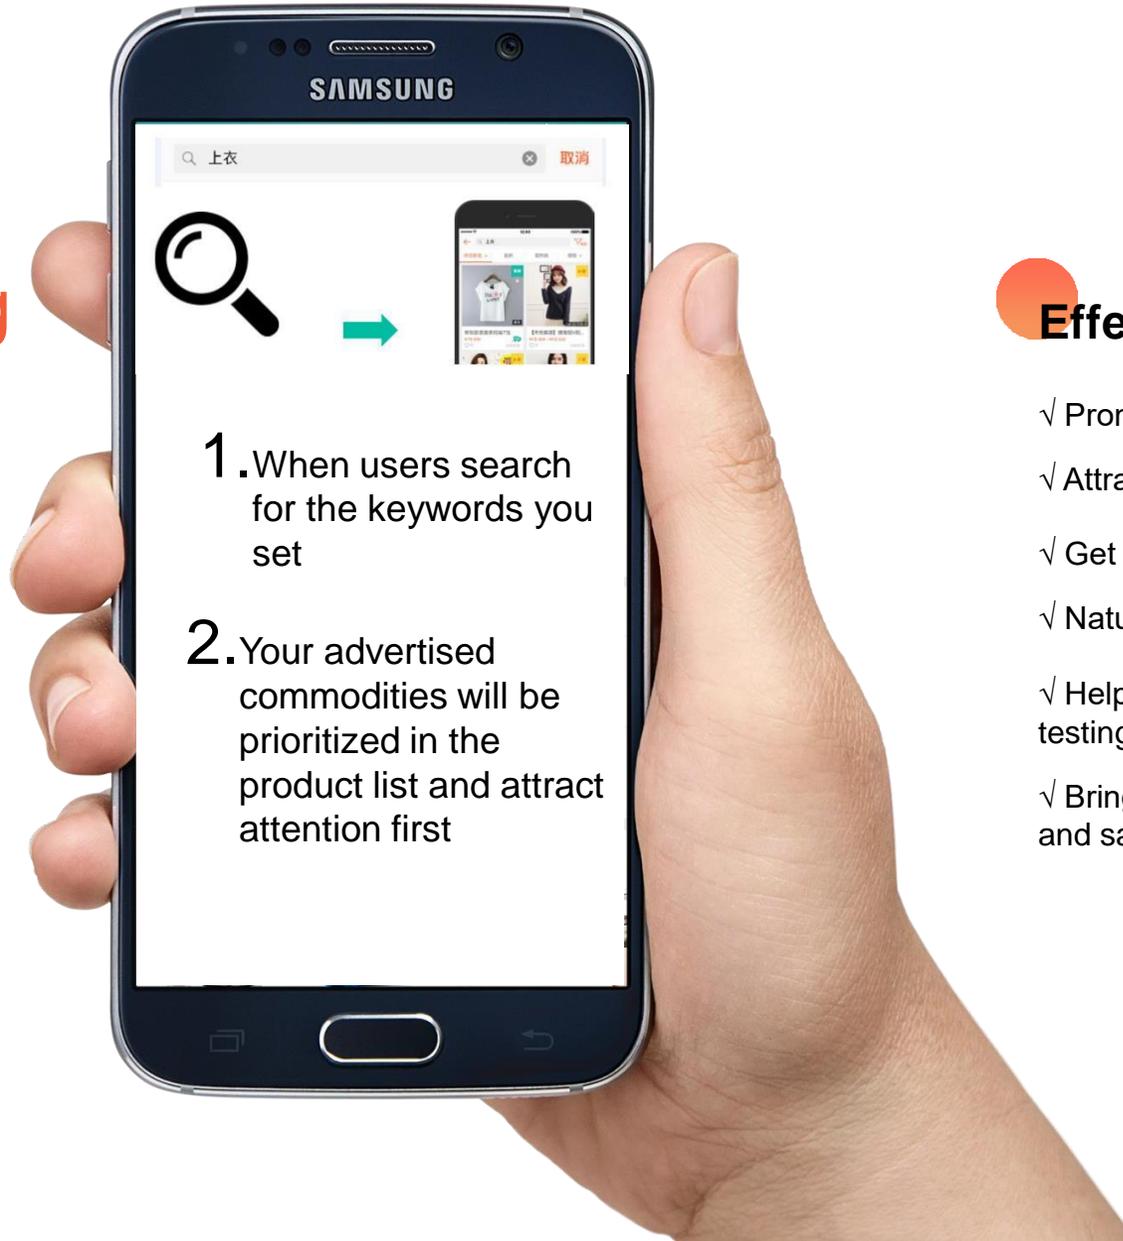

PART 2

Paid traffic within website

What is keyword advertising

Keywords advertising is a paid advertising service launched by Shopee platform, which can improve the exposure of sellers' commodities in mobile APPs and platform web pages. When buyers search for the corresponding keywords, the commodities of sellers who have purchased the keywords advertising service will be prioritized in the search results, so as to help sellers come into contact with more buyers and bring traffic and order growth.

1. When users search for the keywords you set
2. Your advertised commodities will be prioritized in the product list and attract attention first

Effects of advertising:

- ✓ Promote the conclusion of business
- ✓ Attract visitors into the shop
- ✓ Get more followers
- ✓ Naturally improve the order quantity
- ✓ Help product picture and model testing
- ✓ Bring sustained growth to the traffic and sales of the whole shop

Key indicators of keywords advertising

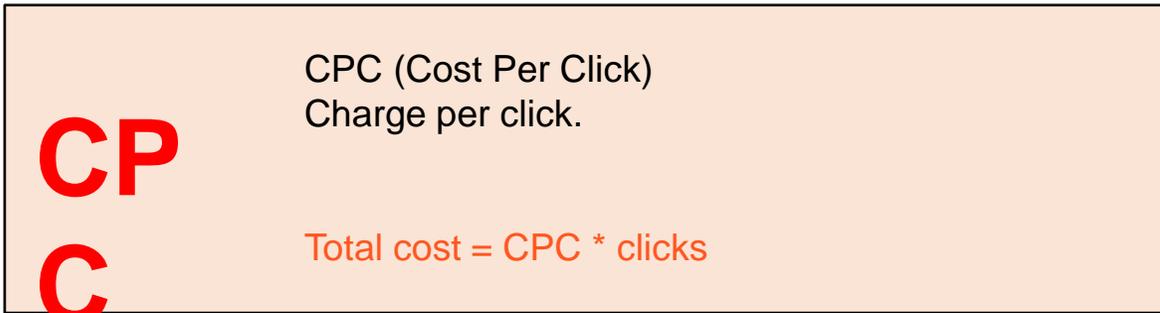

High CTR, because the commodity/main picture/price is attractive

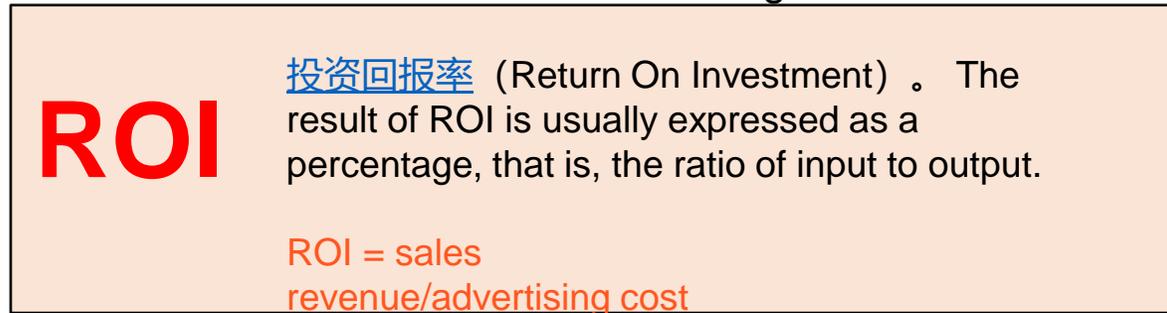

High CR, because the price/comment/description is attractive / the commodity size is complete

Low CPC, because words are located in the front, and the competitiveness of words is small

High ROI, because the cost is low and the sales is high

Introduction to keywords advertising rules - product ranking rules

When other sellers also purchase the keywords advertising service, multiple ads will appear on the same result page as your products.

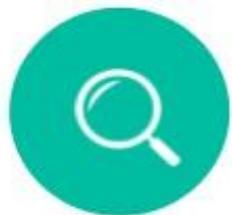

Your ad ranking will be affected by the following two factors:

1. Keyword quality score;

2. Single click price set

Introduction to keywords advertising rules - keyword quality score

关键字质量评分

预测点击率: 根据所选商品、关键字等信息预测出的产品点击率

广告线上表现: 该商品、关键字在广告期间的实际点击率

相关度: 所选关键词和商品标题、描述、分类等相关程度

固定广告排名竞拍仿真:

卖家 A, B, C, 和D 同时竞拍同样关键字

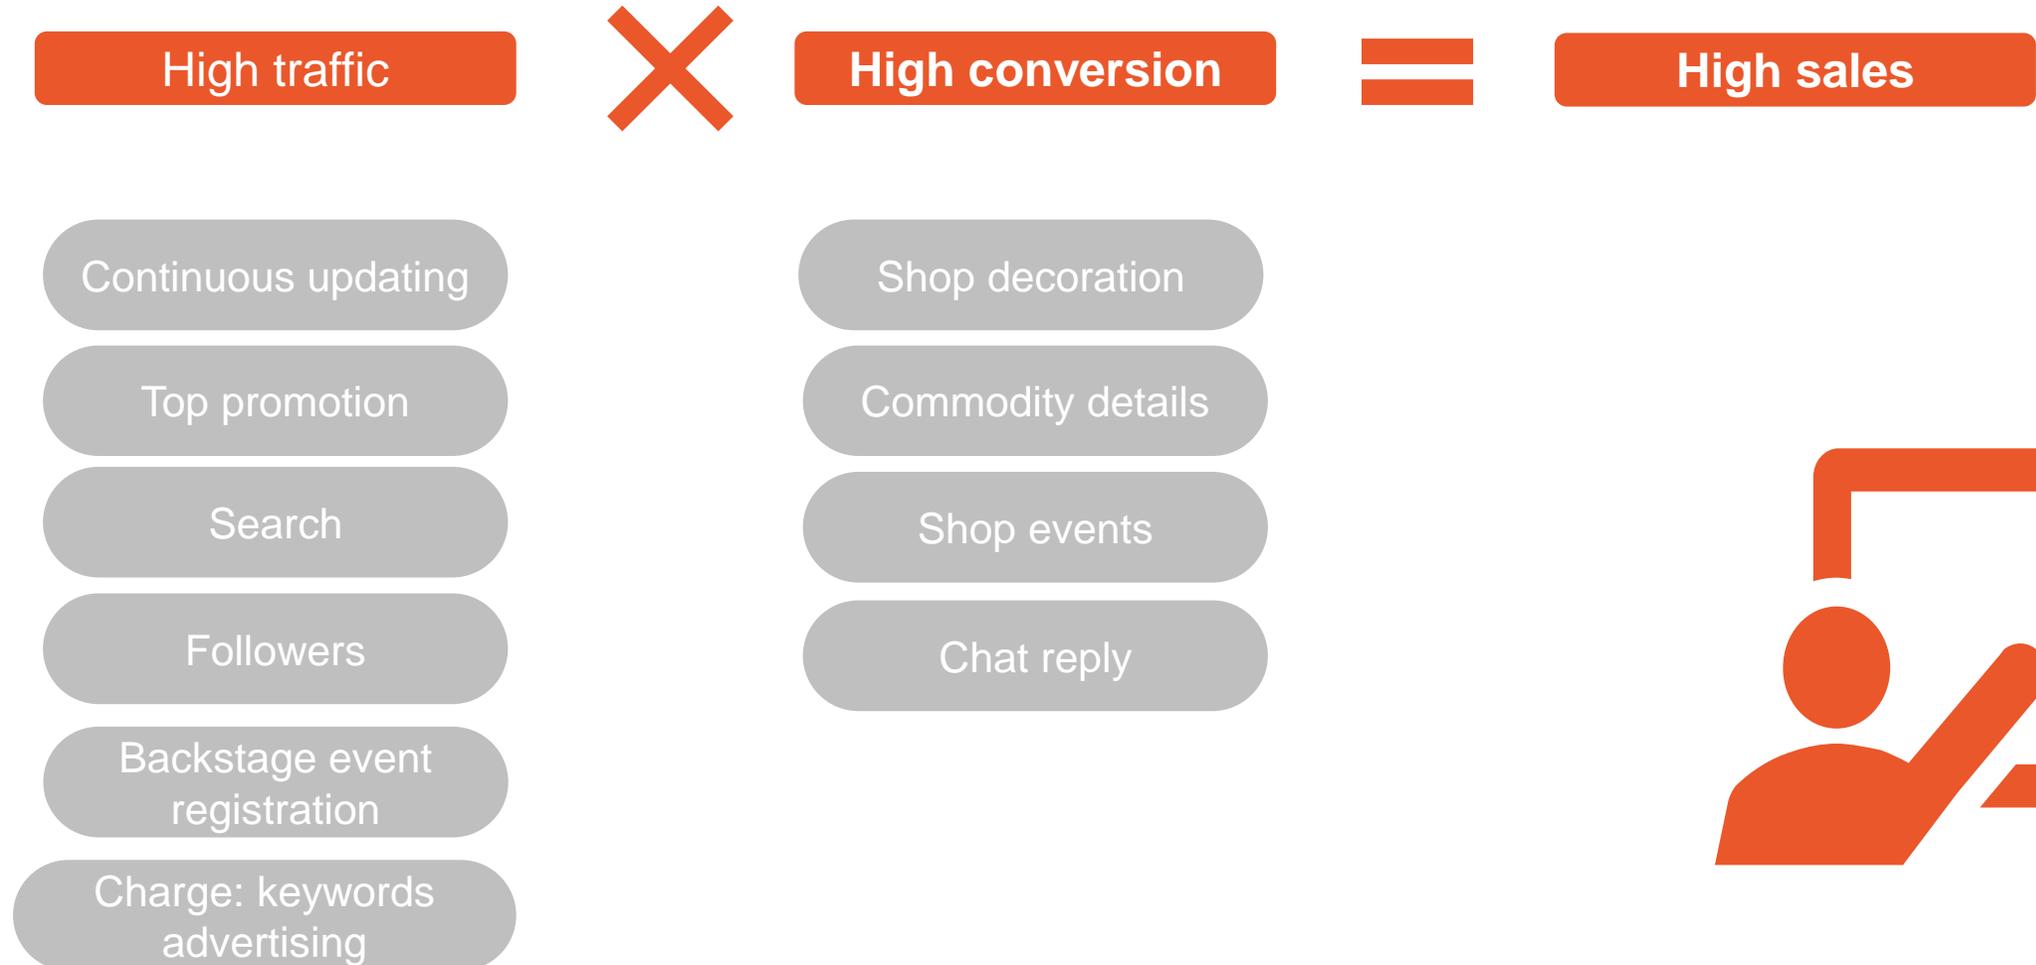

卖家	关键字质量评分	竞拍价格	广告排名
Seller A	Bad	0.02 USD	#4
Seller B	Very Good	0.04 USD	#1
Seller C	Good	0.01 USD	#3
Seller D	Good	0.02 USD	#2

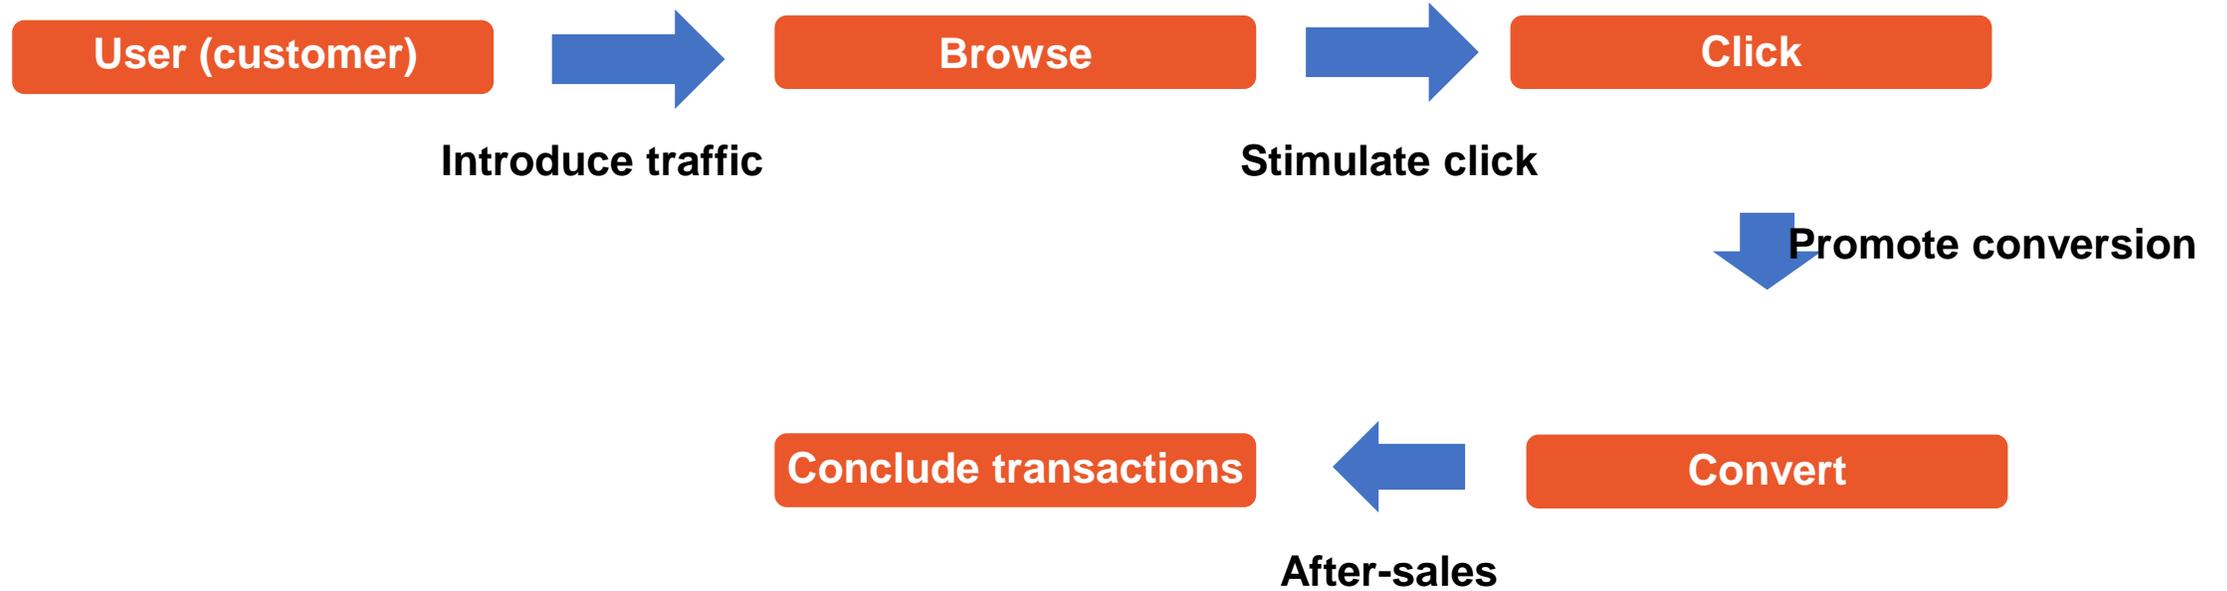

在搜索结果页面中:

Seller B	#1
Seller D	#2
Seller C	#3
Seller A	#4

General overview of operational skills

User behavior:

Soul searching to online retailers

Do you know what you're selling?

Does your shop have low-cost customer attraction and frequently repurchased products?

How do your products compare with those of other similar shops?

Does anyone like your products? Do you want to buy your own products?

Thank you!
