CAREC Road Safety Strategy

Ritu Mishra, ADB

CAREC Road Safety Strategy 2017-2030

- A framework for the CAREC to effectively implement CAREC's commitment to road safety.
- Joint road safety and proposed collective action through a “safe systems” approach.
- Vision - “make CAREC international road corridors safe, efficient, and attractive for all road users.”
- Aims to reduce the number of fatalities on CAREC road corridors by 50% by 2030, compared to 2010.
- Annually, to save 23,000 lives and prevent 250,000 serious injuries.

Achieving the Vision: Key Principles

- To attain the strategy's vision, it incorporates :
 - (i) adopting the Global Plan
 - (ii) a consultative approach to develop priorities,
 - (iii) maximize synergies by linking the strategy to individual country road safety strategies, and
 - (iv) facilitating support for the strategy's implementation

Strategic Directions

- The Strategy rests on the five pillars that underpin road safety planning:
 - (i) road safety management,
 - (ii) safer roads,
 - (iii) safer vehicles,
 - (iv) safer road users, and
 - (v) postcrash care.

Pillar 1: Road Safety Management

- Establish an Effective Management and Coordination Mechanism
- Provide Access to Good Road Crash Data
- Funding for Road Safety
- National Road Safety Action Plans
- Vehicle Insurance

Pillar 2: Safer Roads

- Improve Engineering Design Standards
- Road Planning and Design Meeting the Safety Needs of All Road Users
- Road Safety Audits
- Eliminate Hazardous Road Locations
- Consistency in the Provision of Safe Road Corridors
- Enhance Safety at Road Worksites
- Build Road Safety Engineering Capacit

Pillar 3: Safer Vehicles

- Overloading of Heavy Vehicles
- Vehicle Inspection and Maintenance
- Slow Moving Vehicles

Pillar 4: Safer Road Users

- Legislation
- Increase Awareness of Risks
- Enforcement
- Driver Licensing and Training
- Vulnerable Road Users
- Commercial Fleet Safety

Pillar 5: Post crash Care

- First Responder Services
- Health and Emergency Care Services
- First Aid Treatment
- Communication

Effectively implement strategy

- Action plan based on prioritization
- Monitoring and evaluation
- Delivering as shared responsibility

“Think regionally but act nationally.”

Thank you!
